Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

Population and daily average in Convict prisons.

5. The population of the convict prisons on the 31st March, 1904, was 3,113, having been 2,909 at the end of the previous year. The average daily population in 1903–4 was 3,049, viz., 2,900 males and 149 females. In the previous year it was 2,799, viz., 2,669 males and 130 females.

Number of convicts received during the year.

6. The number of convicts received into local prisons under fresh sentences of penal servitude during the year was 1,051, of whom 337 had served previous sentences of penal servitude, a proportion of 32·1 per cent., as compared with a proportion of 33·1 per cent. during the previous year, when the number received was 1,141, of whom 378 had served previous sentences of penal servitude.

Yearly average number of sentences to penal servitude.

7. The following table shows the yearly average number of prisoners sentenced to penal servitude, and their proportion to the population of the country, since the year 1859 :—

Yearly Average Number of Persons Sentenced to Penal Servitude in England and Wales.	Estimated Average Population of England and Wales.	Number of Persons Sentenced per 100,000 of Population.
During 5 years ended 31st December 1859 ..	2,589	19,257,000	13·4
„ 5 years ended 31st December 1864 ..	2,800	20,370,000	13·7
„ 5 years ended 31st December 1869 ..	1,978	21,681,000	9·1
„ 5 years ended 31st December 1874 ..	1,622	23,088,000	7·0
„ 5 years ended 31st December 1879 ..	1,633	24,700,000	6·6
„ 5 years ended 31st December 1884 ..	1,427	26,313,000	5·4
„ 5 years ended 31st December 1889 ..	945	27,830,000	3·3
„ 5 years ended 31st December 1894 ..	858	29,392,000	2·9
„ 5 years ended 31st December 1899 ..	770	31,061,000	2·5
„ the year ended 31st December 1900	728	32,254,667	2·3
„ „ „ 1901	869	32,526,075	2·6
„ „ „ 1902	1,097	32,997,626	3·3
„ „ „ 1903	1,056	33,378,338	3·2

Average length of sentences of imprisonment.

8. The average length of sentences to imprisonment during the year, including both indictable and summary cases, was 34·4 days in the case of male prisoners and 24·1 in the case of female prisoners, as compared with 35·6 days for males and 23·6 days for females in the previous year.

9. Forty per cent. of the males and 39 per cent. of the females were sentenced to one week or less; 64 per cent. of the males and 66 per cent. of the females to two weeks or less; 94 per cent. of the males and 98 per cent. of the females to three months or less.

volume of crime than t[illegible] which might be the result of longer [illegible] of a larger number of prisoners convicted of offences against the law :—

[illegible]

"	"				
"	"	1897	...	148,113	482·1

"	"	1904	...	189,888	569·9

56. It would be highly interesting if we were in a position to compare the amount of the fines imposed in English courts with those of the sister countries, but, unfortunately, the English judicial statistics do not afford this information. It seems to us, however, that the question whether the fines imposed for minor offences are generally higher than the gravity of the case demands, or than the offender can reasonably be expected to pay, is one worthy of consideration.

Discharges under First Offenders Act, &c.

57. There has been an increase during the year of persons discharged under the First Offenders Act, 1887, and Section 16 of the Summary Jurisdiction Act, 1879, the total being 51,302 as compared with 50,208 the previous year. A table showing the numbers so dealt with each year since 1893 is given in Appendix 17A.

Previous convictions.

58. It is satisfactory to observe from the following table that there has been a slight decrease in the proportion of male prisoners previously convicted; but there has been a slight increase in the proportion of female prisoners. The proportion for the two sexes combined shows a decrease.

Period.	Number of Prisoners received on Conviction.		Percentage of those who had been Previously Convicted.

series of years rendered his advice on all questions of prison discipline and management of the greatest value. He has been succeeded in his office by Captain Eardley-Wilmot, lately Governor of Parkhurst Convict Prison.

Reports of Inspectors, &c.

80. Reports by the Inspectors of Prisons, the Medical Inspector, the Chaplain Inspector, the Surveyor, the Comptroller of Accounts and Stores, and the Inspector of State Inebriate Reformatories, are appended hereto, also a report on the operation of Discharged Prisoners' Aid Societies.

Reports by Governors, &c.

81. Extracts from the Annual Reports of the Governors, Chaplains, and Medical Officers of Local and Convict Prisons and of Borstal Juvenile-Adult Prison are given in Appendices Nos. 19, 20, and 21, and of the officers of State Inebriate Reformatories in Appendix 22.

Meetings of Visiting Committees, &c.

82. A return of the meetings and visits of the Visiting Committees of Local Prisons and of the Boards of Visitors of Convict Prisons and of Visitors of State Inebriate Reformatories during the year is given in Appendix No. 15.

We have the honour to be,

Sir,

Your obedient servants,

E. RUGGLES-BRISE, *Chairman.*

R. S. MITFORD.

H. B. DONKIN.

F. J. DRYHURST.

To the Right Honourable
The Secretary of State
for the Home Department.

commenting on this class of prisoner in the local prisons, arranges them as follows :—

(*f*) Undefined			... ...	17
Total				111

The special regulations issued for the management of these prisoners at Parkhurst, to which allusion has been made in previous reports, are now in good working order and, I am happy to be able to report, have been attended with very good results; far fewer disturbances and breaches of discipline occur now than formerly. The greater number of these prisoners work willingly and cheerfully at market gardening, providing most excellent fresh vegetables for the use of the prison. Those not suited to this work, owing either to mental or physical causes, are chiefly employed at sewing; they do very useful work, making flannel and other underclothing for prison wear. Recently rug-making with coloured wools has been started; this affords an interesting occupation and one which I hope in the future may prove a financial success.

HERBERT SMALLEY.

REPORT by SURVEYOR on WORKS executed or in progress during the Year ended 31st March, 1904.

Local Prisons.

Bedford.—A new scheme of drainage is being carried out. New W.C.'s and soil pipes have been provided to the governor's and two warders' houses.

A W.C. and lavatory basin have been fitted up in the office building.

Birmingham.—The new hospital for females, commenced last year, has been continued. At the same time a crêche, adjoining the hospital, has been under construction.

A new fire main has been laid for the protection of the males' hospital.

The old visiting-boxes have been converted into a lavatory and W.C. for the Visiting Committee.

A commencement has been made in the complete renewal of W.C.'s, soil and ventilating pipes throughout the prison.

Bodmin.—A padded cell for males has been fitted up.

New exercise paths have been laid.

Sanitary improvements have been carried out in the governor's quarters.

Brecon.—A "special" cell for males has been fitted up.

A disinfecting closet has been provided.

Electric bell communication has been installed between the lodge and centre of prison.

A larger window has been fixed in the chaplain's office.

Bristol.—A lobby has been formed to the female "special" cell.

In the chapel, doors and screens have been provided to prevent draughts from the stairs. Stained glass has been fixed in the chapel windows.

Tile floors have been substituted for cement in the kitchen and passages leading to it.

Brixton.—Circulating hot-water pipes have been fixed for heating D wing corridor.

Improved fresh air inlets have been fixed under the windows of 45 cells.

The old gas mains have been taken out and replaced by new mains.

The private approach road to the prison has been widened, improved, and drained.

Maidstone.—An iron gate has been fixed to kitchen entrance.

Improvements to the drying-horses in laundry have been carried out.

An inner key safe has been fixed in the large key safe in gatekeeper's room.

A house has been purchased for the governor and four cottages for warders.

Manchester.—A hood over the cooking pots in kitchen has been constructed.

Newcastle.—The heating of prisoners' private clothes store has been improved.

The means for inspection and heating the padded cells in males' hospital have been improved.

The cell windows on the east side of A wing have been improved by the removal of obscure glass and glazing with clear plain and fluted glass.

A credence bracket has been fixed in chapel.

Northallerton.—A new roof has been put on the kitchen building and the ventilation has been improved.

The heating of the males' reception cells has been improved by a rearrangement of the heating apparatus.

A cell on C III. has been fitted up with a W.C. and slop sink having properly ventilated soil and waste pipes, and an arched opening has been formed in wall of corridor.

A trap door has been removed from an upper cell arch, the opening built up and access to roof provided elsewhere.

Northampton.—Guard bars have been fixed to all cell windows formerly without them on basement floor of males' prison.

Clear and fluted glass has been substituted for obscure glass in the cell sashes of males' reception.

Norwich.—A new hydro-extractor has been fixed in the laundry.

Nottingham.—An iron hot water boiling cistern has been fixed outside the cookhouse for cleansing bed boards.

A shed for wood-chopping, having twelve boxes and a covering for cross cutting, has been constructed at north end of B block.

Oxford.—A bath has also been fitted up in the governor's quarters.

Pentonville.—The man-holes to drains have been improved and the better ventilation of drains attended to.

The cell windows on west side of A wing have been enlarged, and improved fresh air inlets fixed under them.

Clear glass has been substituted for obscure in the central hall windows.

The ventilation of the corridors of A and D wings has been improved.

A bath and lavatory basin have been fixed in the chaplain's quarter.

Shepton Mallet.—An electric bell has been fitted up to ring from the outside of prison entrance to the officer's sleeping room within.

A trap-door in an upper cell ceiling has been removed, the opening built up, and access formed to the roof from the corridor.

An associated labour workshop has been converted out of an old disused hospital.

Exercise paths have been laid for female prisoners.

Shrewsbury.—The iron pipe formerly used for the prison sewage has been removed from the river.

Stafford.—The provision of approved cell windows in lieu of the old small and unsatisfactory windows has been continued.

A crèche has been formed out of a double cell in the females' prison.

Trap-doors in upper cell ceilings have been removed, the openings built up, and access to the roofs provided from cell corridors.

The observation cells in the crescent wing have been provided with iron gates.

Iron gates and an iron grille have also been provided to the first floor landing of hospital.

Swansea.—Trap-doors in upper cell ceilings have been removed, the openings built up, and access to the roofs provided from cell corridors.

The bath-room in males' reception has been improved, and three new baths fixed.

An electric bell has been fitted up to ring from workshop to centre of prison.

Exercise paths have been laid for female prisoners.

Improved washing-up troughs have been fixed in the prison kitchen.

The hot water circulating system in the governor's house has been reconstructed, and an additional sink and a lavatory basin fixed.

Usk.—A bath-house, with two baths, has been erected for the females' prison, also a disinfecting closet, clothes store, covered way, &c.

An officer's sleeping room has been provided at the entrance gate, and an electric bell fitted up thereto to ring from the street.

Kneeling-boards and rails have been fixed to the chapel seats.

Wakefield.—The erection of quarters for seven subordinate officers has been continued.

The redrainage of the prison has been continued.

The 75 cells in F wing, which have not been used for nearly 20 years, have been reinstated, the sanitary arrangements brought up to date, and the wing reoccupied.

Trap-doors have been removed from the arches of four cells on upper floors, the openings built up, and access to the roofs formed elsewhere.

Electric bell communication has been established from the entrance lodge to males' reception and central hall.

A part of the laundry has been converted into a juveniles' workshop; an iron gate at entrance, a stove for heating, and a W.C. have been provided.

Electric bell communication has been established between the males' hospital and prison.

New washing boilers have been provided in the washhouse and furnaces for drying-horses.

Wormwood Scrubs.—The redrainage of the prison has been completed.

All the ground floor cell windows have been improved by the removal of obscure glass and old hopper ventilators, and by reglazing with clear glass and the provision of improved air inlets under the windows.

The prison greenhouse has been extended.

The old temporary female officers' quarters have been converted into a basket making shop.

A store shed has been erected adjoining the brush making shop.

The conversion of the old females' reception and hospital, with extensions for males' reception and workshops, has been commenced.

The hospital wards, corridor, and staircase have had their walls rendered in Portland and Keene's cement and painted.

A block of six quarters for married warders has been erected.

A new W.C. has been built for the chief warder. The old one had to be removed for the new quarters above mentioned.

The electric light has been installed in B wing. An arc lamp has been erected in the front court yard.

Twelve "special" cells have been brought up to modern requirements.

Two boiling coppers with hood over and a brick chimney shaft have been added to the laundry.

Convict Prisons.

Aylesbury.—A recreation room for the officers has been constructed.

Borstal.—A workshop for tinsmiths has been erected.

The roof of entrance lodge has been reasphalted, the part over the carriage way having first been reconstructed.

An additional fire hydrant has been fixed.

Dartmoor.—The extension of No. 6 prison has been continued and is approaching completion.

The structure of new farm stabling has been completed.

The cow byres in the old farm buildings have been remodelled.

The reconstruction of the prison drainage is well in hand.

An annexe containing sculleries and W.C.'s has been built to No. 10 block, warders' quarters.

The ventilation of the prison kitchen has been improved.

The old peat gas house is under conversion to workshops.

Parkhurst.—Outside iron stairs have been erected to the chapel.

A shelter shed for weak-minded prisoners with a store has been erected on the farm, and on another part of the farm a shed for farm implements has been constructed.

The prison kitchen has been extended and greatly improved.

New cell doors have been made and hung in C hall.

The sewage from the barracks has been intercepted before it joins the prison drains.

Portland.—The second C wing towards the reconstruction of the prison is approaching completion.

A new main drain with manholes has been laid for E warders' quarters.

A new larder has been added to the chief warder's quarter.

Foundations have been laid for an additional stone sawing machine.

State Inebriate Reformatories.

Aylesbury.—The construction of the permanent establishment for a State reformatory for female inebriates has been continued.

U. J. WRIGHT.

REPORT OF THE CONTROLLER OF ACCOUNTS AND STORES ON PRISON INDUSTRIES.

From a manufacturing point of view the past year has been the most successful experiment in the annals of prison labour, whether tested by the gross earnings or the increased number of inmates for whom employment has been found.

It may, therefore, be considered desirable to place on record a brief statement showing the progressive tendency of the industrial sections, dating from the inauguration of the new scheme in 1894, under which the careful training of the inmates of our prisons became a fundamental part of prison management.

The workers available during the past eight years are set out in the following table —

—	Manufactures.	Farm.	Buildings &c.	Ordinary Service of the Prison.	Total.
[illegible]	[illegible]	[illegible]	[illegible]	3,733	13,394
[illegible]	[illegible]	[illegible]	[illegible]	3,240	13,651
[illegible]	[illegible]	[illegible]	[illegible]	3,983	14,274
[illegible]	[illegible]	[illegible]	[illegible]	3,980	14,199
[illegible]	[illegible]	[illegible]	[illegible]	2,741	14,488
[illegible]	[illegible]	[illegible]	[illegible]	2,992	15,733
[illegible]	[illegible]	[illegible]	[illegible]	2,964	16,099
[illegible]	[illegible]	[illegible]	[illegible]	3,128	17,290

* Prisoners employed in repairing clothing, bedding, &c., shown under Manufactures instead of Ordinary Service of the Prison from 1st April, 1909.

The value of prison labour during the same period reads as under :—

	Manufactures.	Farm.	Buildings &c.	Ordinary Service of the Prison.	Total.
	£	£	£	£	£
[illegible]	[illegible]	[illegible]	[illegible]	73,457	213,812
*[illegible]	[illegible]	[illegible]	[illegible]	63,691	196,503
[illegible]	[illegible]	[illegible]	[illegible]	67,902	191,507
†[illegible]	[illegible]	[illegible]	[illegible]	69,311	200,977
‡[illegible]	[illegible]	[illegible]	[illegible]	51,497	209,071
[illegible]	[illegible]	[illegible]	[illegible]	54,530	213,276
[illegible]	[illegible]	[illegible]	[illegible]	57,226	213,238
[illegible]	[illegible]	[illegible]	[illegible]	61,430	244,518

* Rates for Manufactures, Farm, and Ordinary Service of the Prison revised 1st April, 1897.

† Building rates revised 1st April, 1899.

‡ Repairs of clothing, bedding, &c., shown under Manufactures instead of Ordinary Service of the Prison from 1st April, 1909.

and this is to be found in the fact that both madness and badness are matters of degree, and that the milder forms of both are amenable to proper treatment. Some inmates have so far improved during detention as to be considered fit for licence ; five inmates were disposed of in that way during the year under review, and nine others, although not considered fit for licence, have been so much improved as to permit of their return to a Certified Reformatory. Of the five licences issued, three were revoked and the licence holders were recovered, two are still in force. Of the nine inmates returned to Certified Reformatories, one required to be sent back to State care, the remaining eight having conducted themselves satisfactorily. Two of the latter were subsequently discharged on licence and are doing well.

R. WELSH BRANTHWAITE.

APPENDIX No. 1.

Return of all Prisoners received into Local and Convict Prisons

(6.) They shall be employed in association in workshops or in outdoor work, such as farming, &c., and they shall be specially instructed in useful trades and industries, which may fit them to earn their livelihood on release.

(7.) Should it appear to the Governor or Chaplain that the habit and character of any convict of this class are not suitable for this special treatment, the fact will be reported to the Directors, who may remove him from the class.

(8.) Special arrangements shall be made with Discharged Prisoners' Aid Societies, or other philanthropic societies, for the supervision of these cases on discharge, and with a view to provision being made for the convict's future welfare.

(9.) Juvenile-Adult Convicts will be subject to the General Rules for the Government of Convict Prisons, except so far as they are inconsistent with these Special Rules.

11. The diets for inmates of the special class shall be the same as those for the ordinary class, with the following additions :—

Dinner :—

Sunday—Fruit or currant pudding, 8 oz.

Monday—Rice pudding, 8 oz.

Wednesday—Currant pudding, 8 oz.

Saturday—Rice or sago pudding, 8 oz.

Supper and Tea :—

Butter, 1 oz. per day.

12. The Regulations numbered 24, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 43, 52, 53, 54, 55, 56, 70 (2), 75, made by the Secretary of State on the 21st June, 1901 [Cd. 656, 1901], are hereby revoked, and also so much of Appendix "A." to those Regulations as was not revoked by the new Regulations as to Dietary, of the 29th December, 1903 [H.C.20, 1904].

Extracts, Governor's Report.

The quantity of clothing and bedding has been found sufficient for all requirements.

The buildings and fences are in good order.

New drains are being laid throughout the prison.

The fire appliances are in good order, and the supply of water adequate.

The supplies from contractors were of standard quality, and delivered punctually.

The progressive stage system has been carried out, and, to the best of my belief, the rules laid down for the government of the prison have been complied with in every instance, except in such cases as have been distinctly reported to, or brought under the notice of, a Commissioner.

BEDFORD PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The general health of the prisoners has been good.

There has been no epidemic.

There have been two attempts at suicide by strangulation, neither proving fatal. One was obviously feigned, the other due to acute mania, necessitating immediate removal to Asylum.

The diet has been sufficient, and of good quality. The bedding satisfactory.

The temperature and ventilation of the prison have been satisfactory, and are kept uniform.

All prisoners are examined on admission.

There has been a noticeable improvement in the physique and general condition of the juveniles.

TOTAL NUMBER of CONVICTED PRISONERS received during the YEAR, the NUMBER ELIGIBLE for INSTRUCTION, and their CLASSIFICATION on RECEPTION.

BEDFORD PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The general health of the prisoners has been good.

There has been no epidemic.

There have been two attempts at suicide by strangulation, neither proving fatal. One was obviously feigned, the other due to acute mania, necessitating immediate removal to Asylum.

The diet has been sufficient, and of good quality. The bedding satisfactory.

The temperature and ventilation of the prison have been satisfactory, and are kept uniform.

All prisoners are examined on admission.

There has been a noticeable improvement in the physique and general condition of the juveniles.

Extracts, Governor's Report.

The conduct of the subordinate officers has been good, and the conduct of the prisoners has been satisfactory.

There have been no escapes or attempts at escape.

Hard labour in the first stage consisted of stone-breaking, oakum picking, wood chopping, and coal sack making for the Admiralty. After passing that stage the male prisoners have been employed making cartridge bags, mats and hammocks for the Admiralty, mail-bags for the Post Office, bookbinding, brush making, carpentry, mat making, shoemaking, tailoring, tin-smithing, building, and general repairs to furniture and clothing and the usual prison services. The female prisoners have been employed at making prison clothing, knitting, laundry work, and in the ordinary services of the prison.

The provision for prisoners awaiting trial for a month or upwards to work at such industries as the prison may afford, has been generally taken advantage of, and the earnings have been expended with beneficial results on behalf of the prisoners concerned.

All the available land has been cultivated, and has supplied about half the vegetables required for prison use, except potatoes and onions.

The buildings and fences, &c., are in good order.

The hydrants and appliances for use in case of fire are in good working order, and the supply of water is adequate.

The quantity of clothing and bedding has been found sufficient to meet all requirements, and the supplies from the contractors have been generally good and punctually delivered.

The number of prisoners treated as first offenders and placed in "Star class" was 621 males and 252 females, of whom 183 males and 44 females were re-committed under fresh sentences.

The progressive stage system has been duly carried out, and attention has been given to the awarding of marks.

To the best of my belief the rules laid down for the government of the prison have been complied with in every instance, except in such cases as have been distinctly reported to or brought under the notice of a Commissioner.

Extracts, Governor's Report.

RETURN showing the EMPLOYMENT of and the VALUE of their EARNINGS,

BIRMINGHAM PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Extracts, Chaplain's Report.

During the year ended 31st March, 1904, the Chaplain's duties in this prison have been performed in all respects in accordance with the regulations. The education of the prisoners has been regularly and carefully carried on. The daily and Sunday services have been performed without intermission, and three sermons have been preached in the chapel every week, and two in the hospital. The services have been conducted by several of the clergy in the neighbourhood, and sermons preached by them, one of them being the Bishop of the diocese. All prisoners have been seen on reception and discharge, and the sick, and prisoners under punishment, visited daily; and all other prisoners have been visited in their cells regularly at frequent intervals. The conduct of the prisoners in chapel, and elsewhere, has been satisfactory.

The Discharged Prisoners' Aid Society continues its good work.

The lady visitors also continue their work with zeal.

As in former years I have received much kind assistance from the Governor, and all other officers in the performance of my duties in the prison.

BIRMINGHAM PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The general health of the prisoners has been very good; only one death from natural causes has occurred, and this was due to alcoholism, induced prior to reception.

There has been no case of suicide.

There has, however, been one case of attempted suicide, and this was obviously feigned.

The dietary has been good and sufficient, and the bedding and clothing have been of good quality.

The ventilation and general sanitary arrangements have been very satisfactory.

The heating of the prison has been suitably maintained.

One case of small-pox and two of erysipelas have occurred during the year. In each case the infection had been incurred before reception, and at the time both diseases were prevalent in the district. All were promptly isolated, and the small-pox case was removed to the City Small-pox Hospital.

All prisoners have been carefully examined before being classified for labour; and care has been particularly directed to the cases of all juvenile offenders.

The officers of the permanent hospital staff have worked diligently in the care of the sick prisoners, and have carried out all instructions in a most satisfactory manner.

BODMIN PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The conduct of the subordinate officers has been very satisfactory.

The classification of prisoners was made by the Courts in one case only.

Full advantage is taken of the power to earn a remission of sentence by industry, &c.

Penalties are rarely paid.

No corporal punishment has been ordered.

Associated labour is quite satisfactory, and is now increased to six hours per diem when daylight serves.

The conduct of the prisoners has been very good; the punishments have decreased nearly one-half; idleness is unknown, even the tramp class work well, and take an interest in their work; the industrial earnings exceed the previous year's by £236; the amount of work done is, I think, very creditable to the trade instructor.

No women were reported for misconduct.

The trial and debtor prisoners appreciate the work and earnings provided.

There has been no escape or attempt.

First stage labour consisted of heavy sackmaking and wood-chopping.

Other industries were the making of hammocks, ammunition bags, and seamen's bags for the Admiralty, and mail-bags for the Postal Service.

The buildings are in good repair.

The fire appliances and water supply are sufficient, and in good order.

The clothing and bedding are in good order, and sufficient has been provided. Extracts, Governor's Report.

The supplies from contractors were of standard quality, and delivered punctually, except in two cases brought to notice.

The stage system continues to work well.

The rules and regulations for the government of prisons have been complied with.

BODMIN PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

One prisoner was admitted suffering from congenital deficiency without epilepsy.

One prisoner was sent to the Cornwall County Asylum, and afterwards returned and underwent his sentence.

One prisoner was admitted charged with attempted suicide and was placed under observation; he showed no symptoms of insanity while in prison.

One prisoner is in custody awaiting trial charged with murder. He is kept under observation.

One prisoner was admitted supposed to be insane. I examined him from time to time, and could find no reason to believe him to be insane at the time of his admission, or at the time of his crime.

The general health of the prisoners has been good.

The dietary and bedding have been sufficient, and of good quality.

The ventilation and sanitary arrangements in the prison are satisfactory, except the laundry of the female prison, now under consideration.

The ventilation is satisfactory in the cells.

All prisoners are examined before being put to labour.

The temperature of the prison has been uniformly maintained.

BRECON PRISON.

Extracts from Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT

During the past year the conduct of the officers has been [illegible] discipline has been well maintained, and the various [illegible] duties of a small staff have been faithfully carried out.

The conduct of the prisoners has been good, and there has been [illegible] the service of corporal punishment.

There has been no escape or attempt at escape.

Only three prisoners have been eligible for remission of sentence. All other prisoners have received sentences of less than six months, and more than one-third of the prisoners have been [illegible] with sentences not exceeding 14 days, in many cases with [illegible] warrants to run concurrently, the result of an [illegible] system carried on in mining districts.

There has been no prisoner received in the first division, and only two in the second division.

Twelve prisoners have been released on part payment of fine, &c.

Associated labour has been carried out whenever possible.

Labour in the 1st stage has been enforced by means of oakum picking, wood-chopping and bundling for the War Department, and, recently, coal-sack making for the Admiralty. Prisoners in other stages have been employed on mail-bag making for Postal Stores, hammock making for the Admiralty, gardening, cleaning, tailoring and other repairs, also the usual domestic work of the prison. The female prisoners have been employed at washing, cleaning, and knitting repairs. For a very considerable proportion of the past year there have been no female prisoners, and the washing has been done by the male prisoners.

Fifteen juveniles have been under special treatment, having been transferred here from the various South Wales prisons. There can be no doubt but that many of the boys committed to prison are the victims of bad home influences, with filthy and immoral surroundings. It is seldom that a boy has any dread of prison except, perhaps, for the first few days, but afterwards he

Extracts, Governor's Report.

becomes accustomed to the disciplinary treatment and kindness of those instructing him, and he soon becomes familiar with prison routine; but in most cases the sentences of juveniles are far too short for any permanent good to be accomplished, and after liberation from prison, I fear they lack that moral courage to enable them to avoid former associates and bad companions.

The garden has been well cultivated, and the output satisfactory, considering the wet season.

The flower garden has been cultivated throughout the year, and continues to find suitable occupation for juvenile and other prisoners.

The fire practice and drill continue to work satisfactorily.

Several soldiers and militiamen received during the year have evidently committed offences purposely to get discharged from the Army, following a short sentence in prison. When giving one man his Army Certificate of Discharge at the expiration of his 14 days' sentence, he remarked that it was the fourth he had received, and he never got out of the Army easier in his life. The men, being committed by the local magistrates, are not sent to their place of enlistment, consequently they remain about the town, and associate themselves with the street corner loafers and unemployed, and frequently are received back into prison for committing other offences. The system for dealing with this class seems to require some modification.

The prison has been twice visited during the year by a Commissioner, and the usual periodical visits made by the Inspectors, members of the Visiting Committee, and others, but in no case has there been any complaint.

The supplies from contractors have been good and punctually delivered, and the quantity of clothing and bedding has been sufficient; the supply of water is also plentiful.

The sanitary arrangements are satisfactory.

The prison buildings are in good order. The disinfecting chamber, recently completed, works admirably. A "special" cell has also just been completed, and several minor repairs and alterations have been carried out.

The progressive stage system has been carefully carried out, and the rules and standing orders for the government of the prison have been strictly complied with.

Governor's Report.

BRECON PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners during the past year has been satisfactory, only one man being admitted into hospital, suffering from anæmia, causing great weakness and faintness. He was anæmic when admitted into this prison. There have been no deaths, nor attempts at suicide.

There has been no epidemic of any infectious disease.

The water supply and sanitary arrangements are good and satisfactory.

As a rule, prisoners improve in health after being here a few weeks, and many of them increase in weight.

All prisoners are carefully examined when admitted—and before their discharge—and labour is graduated according to their health.

Extracts, Governor's Report.

BRIXTON PRISON.

Extracts. Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The conduct of the subordinate officers has been generally satisfactory.

The conduct of the prisoners has been satisfactory, with a few exceptions among the convicted prisoners.

There were no escapes or attempts at escape.

Associated labour is carried out among the convicted prisoners. These have been employed at sack making and mail-bags.

Unconvicted prisoners who wish to work are employed at their trades if possible, and some useful work has been done by them of late; but as they are only in custody, as a rule, for a short period, the work fluctuates a good deal.

The workshops are in daily use, and afford occupation for men who have a trade, while others are glad to be employed in the general service of the prison.

Appliances for use in case of fire are sufficient, and there is an adequate supply of water.

All available ground within the walls is being prepared for cultivation.

The quantity of bedding and clothing in store has been found sufficient for all requirements.

The contractors' supplies have been satisfactory, and punctually delivered.

The progressive stage system has been duly carried out with the convicted prisoners.

The rules laid down for the government of prisons have been complied with in every instance, except in such cases as have been distinctly reported to, or brought to the notice of, the Commissioners.

BRIXTON PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The general health of the prisoners was good during the year. There was no epidemic.

Five cases of attempted suicide occurred. Four of these were considered to be feigned attempts. In the fifth case the prisoner developed delirium tremens soon after, and was probably irresponsible.

Convicted prisoners have been carefully examined before being classified for labour.

The clothing and bedding have been satisfactory.

The food has been of good quality, and well prepared.

The warming of the prison has been carefully attended to.

The ventilation has been improved by the alterations made.

The general sanitary arrangements have been satisfactory.

CAMBRIDGE PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

Extracts, Governor's Report.

The state and discipline of the prison have been satisfactory.

The conduct of the officers has been very good.

The behaviour of the prisoners generally has been good.

There has been no escape, and no attempt to escape.

There was one case of corporal punishment for striking an officer in the face with a chopper.

The rules relative to the division of offenders have been complied with.

Two male offenders of the first division, five males and four females of the second division, have been received.

No prisoner has been released on part payment of fine.

The power to earn remission has been much appreciated.

The progressive stage system has been carried out according to the regulations.

Male prisoners have been employed at oakum and yarn picking, sawing wood, making hammocks, sacks, and mail-bags, wood-chopping, gardening, on various building work, and in the ordinary service of the prison; females, in repairing clothing, washing, and cleaning.

Labour in association has been carried on to the fullest extent whenever possible.

The fire appliances are in good order, and there is a plentiful supply of water.

The quantity of clothing, bedding, &c., has been sufficient.

The contractors' supplies have been equal to samples, and punctually delivered.

Extracts, Governor's Report.

The prison buildings are in good condition. The boundary fence and hedge are in fair order, except where specially reported as requiring to be renewed.

The lady visitors devote much time and care to the female prisoners, and endeavour to keep in touch with them after release.

The Discharged Prisoners' Aid Society has given assistance to many prisoners in the way of tools, clothing, and railway fares.

The prison has been regularly visited each week by members of the Visiting Committee.

To the best of my knowledge and belief the rules for the government of prisons have been complied with in every instance.

CAMBRIDGE PRISON.

Extracts Chaplain's Report.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

The work for the year ending March 31st, 1904, has been duly carried on, and there has been no break in the usual chapel services. Sermons have been given on all appointed days, and an address on Wednesday mornings.

All prisoners have been properly visited, and a record kept of visits to those under longer sentences.

The library is now in excellent condition, and well used.

The education has been properly carried out by the schoolmaster under my supervision, and is satisfactory.

The lady visitors have given useful assistance during the year as also has the Discharged Prisoners' Aid Society; thanks are due to both for their help.

The courtesy of the Governor and staff has helped materially to make the work go smoothly and pleasantly.

CAMBRIDGE PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

During the past year the general health of the prisoners has been good.

There have been no deaths from any cause, and no attempt at suicide.

Only one case of serious illness has been under treatment, that of a man suffering from cancer of stomach on admission and afterwards (being released on medical grounds) transferred to workhouse infirmary. One assistant warder died from psoas abscess in Addenbrooke's Hospital.

All prisoners on admission have been medically examined prior to classification for labour.

The ventilation, warming, and sanitary arrangements have been good.

The dietary has been sufficient, of good quality, and well served.

The bedding and clothing have been satisfactory.

The buildings are in good order.

Extracts, Governor's Report.

For workhouse offences 107 males and 2 females have been received—a decrease of 13 from last year.

To the best of my belief the rules laid down for the government of prisons have been complied with.

CANTERBURY PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

During the last year the health of the prisoners has been satisfactory.

There has been no epidemic.

Two prisoners were admitted, one male and one female, who were subsequently found to be suffering from typhoid. The woman was removed to the sanatorium. The man was too ill to be removed and he died. Both prisoners contracted the disease before their admission.

Two deaths occurred, viz., one from typhoid and one from Bright's disease.

One prisoner was certified as insane, and was removed to the asylum.

The sanitary condition is satisfactory.

The heating and ventilation have been carefully attended to.

The dietary and bedding have been satisfactory.

There has been no real attempt at suicide.

All prisoners have been carefully examined on admission.

CARDIFF PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Extracts, Chaplain's Report.

I commenced my duties here on February the 26th last, and therefore can speak only of matters from that date.

Morning prayer has been said daily.

Divine service followed by a sermon has been held morning and afternoon on all the great Church fasts and festivals, and on each Sunday throughout the year. The conduct of the prisoners in the chapel has been good.

The Holy Communion was celebrated on Easter Day, 13 men being present.

Every prisoner has been interviewed by me on reception and discharge, and periodically during the term of his or her imprisonment.

Those reported sick, under punishment or special observation, or having applied to see the chaplain have been visited by me daily.

A special form of service for the sick, followed by a very brief address has, numbers permitting, been held in either hospital (male or female).

It is extremely difficult to form anything approaching a correct estimate of the educational results of the teaching staff of this prison owing to the preponderance of illiterates in this district. This seriously handicaps the efforts of the schoolmaster.

The committee of the Discharged Prisoners' Aid Society perform a most valuable work. They are to be congratulated on the acquisition of so able and devoted an agent.

The work of the lady visitors is beyond all praise.

I have to thank the Governor and members of the staff, who have always been ready to render me every possible assistance.

CARDIFF PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners during the year ending March 31st, 1904, has been good.

In every case, prisoners have been carefully examined before being passed for hard labour.

The bedding and dietary have been good and sufficient.

The ventilation and sanitary arrangements are satisfactory, as is the heating apparatus, the prison having been kept at a uniform temperature.

There has been no epidemic during the year.

One female prisoner made two feigned attempts at suicide, and one male prisoner made one such attempt.

One prisoner died suddenly in prison from natural causes, death being due to vomiting and syncope.

CARLISLE PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Since my appointment the general health of the prisoners has been good. No epidemic disease has occurred. Small-pox was very prevalent in the district during the winter months, and it was necessary to vaccinate and re-vaccinate a very large number of prisoners.

No suicides have been attempted. No death occurred in prison.

One prisoner was removed on medical grounds to the Whitehaven Infirmary a fortnight before the expiration of his sentence.

The dietary continues to be satisfactory.

The heating and ventilation of the prison have proved to be all that can be desired.

The bedding and clothing have been of good quality.

Extracts, Governor's Report.

other stages comprised wood-chopping and bundling, hammock and mail-bag making, gardening, repairing prison clothing and shoes, and the usual domestic work of the prison. Knitting, needlework, washing, cleaning, &c., have formed suitable and profitable employment for females.

The buildings and fences have been maintained in good order.

The appliances for use in case of fire are sufficient, and since the completion of the new reservoir for the town, the supply of water is abundant.

The quantity of clothing and bedding has been sufficient to meet all requirements, and the contractors' supplies equal to the samples and delivered at the specified times.

Every care has been exercised in awarding marks under the progressive stage system, which continues to work well.

The rules laid down for the government of the prison have been complied with in every instance, except in such cases as have been distinctly reported to, or brought under the notice of, a Commissioner.

CARMARTHEN PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The general health of the prisoners has been very good, in proof of which I may state the fact that only two prisoners required hospital treatment—one being a case of acute alcoholism, and the other being a case of scalp wound, after an epileptic seizure.

The health of the officers has been very good.

Further experience of the new dietary has been very satisfactory. Very few prisoners lose weight—the loss is very slight, and the necessity for extra food is very exceptional.

There has been no death, and no case of suicide or of attempted suicide.

Two prisoners—one convicted, and the other unconvicted—were removed to the asylum.

The ventilation of the cells has been good. The heating of the prison has been carried out very satisfactorily. During the winter months every prisoner has an extra blanket.

The general sanitary condition of the prison has been very good. The water supply, obtained from the town service, has been abundant and of good quality.

I visit the prison every morning and night, and, if necessary, at other times.

All prisoners are carefully examined before being passed on for labour. As in former years, the chief causes of inability to do hard labour were varicose veins, often accompanied with ulcers and rupture.

Extracts, Governor's Report.

The fire appliances are in order.

The supply of clothing and bedding is ample, and the contracts have been well carried out.

The progressive stage system continues to work well.

The Discharged Prisoners' Aid Society has done another good year's work, and would be able to do more were it able to distinguish between the professional tramp and the man in search of honest work.

The lady visitors have been most attentive to their duties, and, in conjunction with the chaplain, have very materially assisted me in making arrangements for the care of female prisoners on their release.

The rules and regulations of the prison have been strictly carried out.

CARNARVON PRISON.

Extracts, Chaplain's Report.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

The education of the prisoners has been duly carried on—the numbers being very small, but the progress satisfactory.

The daily and Sunday services have been duly performed.

The prisoners have been seen on reception and discharge, and the others about weekly; the sick daily. They have been attentive, and in every case respectful. The officers have done all they could to help me, and so have the lady visitors and the Discharged Prisoners' Aid Society after their kind. It is absolutely essential for a chaplain to have the real sympathy, not only the official co-operation, of the officers.

The officers here took much interest in the Church Army Mission, and according to their several abilities they help in the singing. The tunes used are mostly Welsh, and, as I have previously pointed out, we have no English words for some of the most familiar.

DERBY PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The working of the changes in the system effected by the Prison Act, 1898, continues satisfactory.

The triple division of offenders works well.

The power to earn remission of sentence, and the provision for the part payment of fines continue to be appreciated.

No case of corporal punishment has occurred during the year.

The conduct of the subordinate officers has been good.

The conduct of the prisoners generally has been good, and there have been no escapes or attempts to escape.

Hard labour prisoners of the first stage have been employed at firewood-chopping, oakum-picking, and coal-sack making. The remainder of the prisoners were employed at label-making for the Post Office, tailoring, needlework, knitting, rug-making, cotton sorting, mattress making, &c.

The buildings are all in a satisfactory condition.

The fire appliances are sufficient and in good order, and there is a plentiful supply of water.

The clothing and bedding have been found sufficient to meet requirements.

The supplies from the contractors have been good, and delivered with punctuality, with two exceptions.

The progressive stage system has been carefully carried out.

The rules and regulations for the government of the prison have been properly carried out.

CHELMSFORD PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The general health of the prisoners during the past year has been excellent; the cases of sickness have been, speaking generally, very mild in character. There has been no epidemic or infectious sickness of any kind.

There has been one suicide and one attempted suicide. The latter case was found after observation to be of unsound mind.

All prisoners have been carefully examined before being certified for any labour.

The dietary has been ample and of excellent quality.

The sanitary condition of the prison is in excellent order. The ventilation of the cells generally is excellent, the prison and the cells being carefully heated and kept practically at one uniform temperature.

The water supply is of good quality.

DERBY PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Extracts, Chaplain's Report.

With the exception of the time during an outbreak of small-pox, when the chapel was closed, the week-day and Sunday services have been regularly performed. An eight days' mission, by Mr. Arthur Henson, of the Church Army, in January, 1904, proved very acceptable, and I believe many of the prisoners profited by the homely and forcible addresses of the missioner. The Rev. F. P. Downward has also given a course of addresses, and the Bishop of Derby took the service on one occasion. The conduct of the prisoners in chapel has been very good.

All prisoners have been visited on admission and discharge, and those with long sentences at intervals. I have always been well received.

The schoolmaster has done his work efficiently.

One of the lady visitors has resigned the work after a long and faithful period of service.

The Discharged Prisoners' Aid Society continues its good work.

The Governor and all the officials have always rendered me every assistance in their power, for which I am deeply grateful.

DERBY PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The general health of the prison has been good, but a case of small-pox was brought in from Chesterfield in February, and has been followed by a succession of five cases, as duly reported.

There has been no suicide, and only one death during the year.

All receptions are carefully examined before being passed for labour.

The dietary and bedding have been good and sufficient.

Ventilation and sanitary arrangements are satisfactory, and suitable temperature is maintained.

Extracts, Governor's Report.

Twenty-three juvenile offenders have been received during the year, but I am very pleased to note that only two of these were committed direct to this prison, the remainder being transferred from other counties. They have been visited daily by the chaplain and myself.

The Discharged Prisoners' Aid Society continues to do good and useful work, and every application for assistance is carefully considered by the sub-committee.

The progressive stage system has been duly carried out.

The rules laid down for the government of the prison have been complied with in every instance, except in such cases as have been distinctly reported to, or brought under the notice of, a Commissioner.

DEVIZES PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Extracts, Chaplain's Report.

During the year the week-day and Sunday services have been regularly held in the chapel, and the Holy Communion has been celebrated on the great festivals, and on other occasions.

I have regularly visited all prisoners on admission and on discharge, and the sick and those under punishment daily. I have also visited the juvenile prisoners daily, and inspected their educational work. I have also visited at intervals all cases remaining for any length of time in the prison.

In my visits I have always found the prisoners respectful and attentive.

I have received help from time to time from the Rev. F. Phipps, Vicar of S. Peter's, Devizes, the Rev. H. E. Tilsey Bassett, Chaplain of the Wilts. County Asylum, the Rev. G. Bord, Chaplain of the Devizes Union Workhouse, and the Rev. C. Cobbe, Curate of Southbrook, all of whom have preached sermons in the chapel. Captain Skinner, of the Church Army, conducted a week's mission in the prison, and his addresses in the chapel were listened to with marked attention.

The Bishop of Salisbury visited the prison, and, in the chapel, confirmed a prisoner under sentence of death. The Bishop afterwards paid a long visit to the condemned man in his cell.

Of the work of the schoolmaster I cannot speak too highly. His duties in this department are carried out ably and conscientiously.

Much excellent work has been done by the lady visitors, who have been most painstaking in dealing with a number of difficult cases.

I have received every possible kindness from the Governor and matron and other officers in the discharge of my duties.

DEVIZES PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the prisoners has been good during the past twelve months, the number of casual sick cases being less than usual.

No infectious disease has occurred.

The sanitation of the prison has been good; the temperature has been equably maintained: and I have had no complaints as to the food. Reception cases have been carefully examined on admission.

One prisoner has been removed to the asylum, and another was found insane on trial. A third is at present in the prison during His Majesty's pleasure.

One death has occurred, due probably to pulmonary embolism.

There has been no case of suicide, or suicidal attempt.

There has been one execution, the arrangements for which were skilfully and mercifully carried out.

The health of the prison staff has on the whole been good, but two female officers are at present incapacitated for work.

DORCHESTER PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners for the past year has been good; there has been no epidemic, no death, no suicide, nor attempted suicide.

All prisoners are medically examined on reception.

The dietary and bedding have been good and sufficient.

The ventilation of the cells, the sanitary arrangements and the temperature of the prison are quite satisfactory.

Two male prisoners have been sent to the county asylum as certified criminal lunatics.

DURHAM PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

During the past year the health of the prisoners has been good. There has been no infectious disease.

There has been one suicide by hanging, and four attempts, three of which, in my opinion, were genuine, and the other undoubtedly feigned.

All prisoners for hard labour are stripped and examined before being passed.

The dietary and bedding have been of good quality and sufficient.

The ventilation of the cells is good, and the sanitary arrangements are satisfactory.

All attention has been paid to the heating, and the prison has been maintained at as uniform a temperature as possible.

EXETER PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the prisoners during the year ending March 31st, 1904, has been generally good.

No epidemic has occurred.

There were three deaths during the year, all from natural causes.

One male prisoner attempted suicide.

One female prisoner was notified to the police as being of weak mind, and was afterwards certified by them for the asylum.

The clothing and bedding were both suited to the seasons of the year.

The food was of good quality and well cooked.

All prisoners were carefully examined before being passed for labour.

The heating, ventilation of cells, and sanitary arrangements generally were satisfactory.

GLOUCESTER PRISON.

Extracts, Chaplain's Report.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

The chapel services have been regularly performed by myself and my assistant curates, and they are much appreciated by the majority of the prisoners. The Holy Communion has also been celebrated whenever there has been a sufficient number of communicants.

The sick and those under punishment have been daily visited, and all admitted and for discharge have been seen. The others also have been frequently seen, and in most cases have been apparently grateful for sympathy and advice.

The Governor and matron and all the officers have been invariably kind, courteous, and helpful to me and my colleagues, and we are very grateful to them.

HEREFORD PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Medical Officer's Report.

The general health of the prisoners and officers during the year has been good. There has not been any epidemic, suicide, or attempt at suicide. All prisoners have been carefully examined on reception and discharge.

The dietary, clothing and bedding have been good and sufficient. The general sanitary arrangements and the heating of the prison have been well attended to.

Extracts, Governor and Medical Officer's Report.

The general sanitary state of the establishment has been good, but there is a blocking in some of the old drains, which calls for attention.

The health of staff has been good, and admissions to hospital have been generally for slight ailments.

HULL PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts Medical Officer's Report.

The general health of the prisoners during the past year has been good, and no epidemic has occurred.

There was no case of suicide, but one attempt, which was a feigned one.

All prisoners have been carefully examined before being passed for hard labour or for any other labour, and before punishment.

The dietary and bedding have been sufficient and of good quality.

The ventilation, heating, and sanitary arrangements have been satisfactory, and the temperature throughout the prison has been kept as uniform as possible.

There were three deaths during the year, but one of these was an execution.

IPSWICH PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The conduct of the officers has been good.

The conduct of the prisoners has been good on the whole, but there has been an increase in offences of violence on the part of a few, and it has been necessary to inflict corporal punishment on three prisoners.

There have been no escapes or attempts to escape.

Hard labour has been carried out by wood sawing and oakum picking. Industrial labour has consisted of making mail-bags, hammocks, cartridge and projectile bags, eyeletting army blankets, gardening, wood chopping, repairs to prison shoes, and ordinary work about the prison. Female prisoners have been employed at laundry work and repairing clothing.

The buildings are in good condition.

The appliances in case of fire are in good condition, and the water supply adequate. Fire practice is held monthly.

The quantity of clothing, &c., in store has been sufficient, and the contractors' supplies have been good and punctually delivered.

The garden has supplied a good crop of vegetables.

The progressive stage system has been carried out; and the rules laid down for the government of the prison have been complied with, except in such cases as have been reported to, or brought under the notice of a Commissioner.

RETURN showing the EMPLOYMENT of PRISONERS, and the VALUE of their EARNINGS during the Year ended 31st March, 1904. Extracts, Governor's Report.

KNUTSFORD PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

Extracts, Governor's Report.

The Prison Act of 1898 continues, in my opinion, to work admirably.

The conduct of the subordinate officers has been good.

The conduct of the prisoners, with some few exceptions, has been good.

There have been no escapes or attempts.

The prisoners have been employed at bed making, bookbinding, cotton and oakum picking, coal-sack making, rug weaving, mail-bag and hammock making, tailoring, shoemaking, wool sorting, and repairs of all kinds.

The fire appliances are adequate.

The clothing and bedding are sufficient to meet all requirements.

The contractors' supplies have been good.

The lady visitors still take the greatest interest in their work, and continue their kindly interest after the prisoners' discharge.

Once more I should like to bring to your notice the immense amount of good, physically, morally, and educationally, brought to bear upon the numerous juveniles received at this prison, thanks to the untiring energy of the chaplain. From careful observation I feel confident that the boys, in many instances, are discharged never to return again.

Since my last report, the tread-wheel has been dismantled, and the pumps are worked by a gas engine. The disused house is being converted into an associated labour room, of which I am sadly in need.

The rules, standing orders, and progressive stage system have been carried out to the best of my ability.

IPSWICH PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

There have been few cases of serious illness among the prisoners during the past year. There has been no epidemic of any kind.

There have been no deaths within the prison during the past year.

There have been no cases of suicide or attempted suicide.

Two cases requiring surgical treatment of a special kind have been discharged to the hospital at Ipswich.

All the prisoners are examined before being passed for hard labour.

The dietary and bedding have been good and sufficient. Most of the prisoners have gained weight during their period of detention.

The ventilation of the cells, and the sanitary arrangements have been satisfactory.

The heating of the prison has been properly attended to.

The health of the warders has been good.

Extracts, Governor's Report.

KNUTSFORD PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Extract Chaplain Report

I have carried out the duties of my office as chaplain in accordance with the rules.

The services have been duly performed in the building set apart for divine service, viz., two services on Sunday, Christmas Day, and Good Friday, with sermon at each service.

The daily services have been carried out.

The Holy Communion has been administered.

I have seen each prisoner on reception and discharge, and visited them in their cells at frequent intervals, and the juveniles and the hospital daily.

The Church Army mission, conducted by Captain Andrews in January for twelve days, did good, and many prisoners have spoken gratefully of it.

The Discharged Prisoners' Aid Society for Cheshire has been, and is, doing good work.

There have been 1,897 males and 456 female prisoners transferred from other prisons to this during the year, and 1,486 ordinary admissions.

The education of prisoners has been carried out, and the progress made, satisfactory.

KNUTSFORD PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the prisoners has been very good, very few cases of serious illness having arisen.

The deaths have been two : one male, from epileptic convulsions ; the other, a female, from gastritis and senile decay.

Three women were discharged on medical grounds, all advanced in pregnancy.

There were three cases of insanity, all males, removed to asylums.

Thirty-two male and five female prisoners have been admitted into hospital.

No case of infectious disease has arisen or been admitted.

The dietary and bedding are according to order.

The health of the officers has been good, and no male officer has left the service on account of ill-health.

Extracts, Governor's Report.

Associated labour has been carried out as fully as possible.

A tramp, committed for 14 days, was found to be suffering from small-pox shortly after admission. He was promptly isolated, and removed to the Lancaster small-pox hospital. This, and other measures taken, prevented any spread of the disease.

The fire appliances are in good order, and they have been regularly tested. The water supply is good.

There have been no escapes, or attempts to escape.

Contractors' supplies have been satisfactory.

The buildings generally are in good order.

The manufacturing industries have been expanded, and an increased quantity of work has been turned out during the year.

The power to earn remission is appreciated by the prisoners, and it encourages them to behave well.

The progressive stage system continues to work satisfactorily; and the rules laid down for the government of the prison have been complied with, except in such cases as have been distinctly reported to, or brought under the notice of, a Commissioner.

LANCASTER PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The general health of the prisoners has been good. The food, clothing, and bedding supplied to the inmates has been sufficient, and of good quality. The ventilation, heating, and sanitary arrangements have been systematically inspected and found satisfactory.

All prisoners have been thoroughly examined on admission.

There has been one attempt at suicide by a man just admitted, who had been drinking heavily.

All prisoners have been asked if they wished to be vaccinated, and large numbers have availed themselves of the offer; those, however, sentenced to short terms of imprisonment, express aversion to it, giving as a reason that it would be likely to interfere with their work on discharge.

One case of small-pox occurred, which was at once removed to the borough small-pox hospital.

The matted cells have been in use for a year, and have proved of very great service.

The new drains for the female wing have been completed. The work has been well done, and is a great improvement on the old state of things.

The water supply has been all that could be wished.

Extracts, Governor's Report.

Talking at exercise, however, has not been allowed, those eligible being "habituals."

The progressive stage system has been duly carried out.

LEEDS PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The general sanitary arrangements of the prison are satisfactory. The heating apparatus acts well, and a fairly uniform temperature has been maintained during the winter months.

The clothing of prisoners is sufficient, and the food of good quality and ample in quantity.

There have been three cases of infectious diseases during the year, viz. :— facial erysipelas (male), November 9th, 1903; enterica (male prisoner), December 17th, 1903; Scarlet fever (male prisoner), January 28th, 1904. The two latter were contracted before admission, and were at once isolated and afterwards removed to the city fever hospital. No further case appeared.

The regulations respecting the examination of prisoners on reception as to mental and physical fitness for labour, are carefully carried out.

LEICESTER PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

Extracts, Governor's Report.

The officers' conduct has been very satisfactory, and discipline in the prison well maintained.

No escape or attempt at escape occurred, and the conduct of prisoners, generally, was good.

The same industries as in the previous year were carried on, respectively, by the male and female prisoners, and every opportunity for associated labour was taken advantage of under the regulations.

The fire appliances were regularly tested from time to time.

The prison supplies were carefully inspected and regulated; and, in fact, all the rules for the administration of the prison were fully carried out.

LEICESTER PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

During the past year the health of the prisoners has been generally good, and I am glad to be able to state there is no mortality to record from natural causes. There was only one case of a feigned attempt at suicide. One case of advanced pregnancy was discharged on medical grounds; and one male prisoner was found insane on remand and removed to an asylum.

There has been no outbreak of infectious disease during the year; one mild case of facial erysipelas is all that can be placed under this heading.

All prisoners are examined on reception before being put to work.

The dietary and bedding have been sufficient, and of good quality.

The general sanitary arrangements are satisfactory, a great deal of necessary sanitary work having been carried out during the past year in connection with drainage, and these details have been excellently performed.

LEWES PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

Extracts, Governor's Report.

The conduct of the subordinate officers has been good.

That of the prisoners has also been good.

There has been one attempt at escape.

The prisoners have been employed in making baskets, beds, hammocks, mail and other bags, clothes, shoes, mats and rugs; as carpenters, tinsmiths, gardeners, needleworkers, oakum pickers, and wood choppers, and in the ordinary work of the prison.

The state and condition of the buildings, fences, &c., is satisfactory.

The appliances for use in case of fire are sufficient and in proper working order, and the supply of water is adequate.

The quantity of clothing, bedding, &c., in store has been found sufficient to meet all requirements.

Contractors' supplies have been good and punctually delivered, except as already reported.

The progressive stage system has been duly carried out; and the rules laid down for the government of the prison have been complied with.

LEWES PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

I have no epidemic disease to record.

There has been one attempt at suicide, probably feigned.

One prisoner died of phthisis while waiting trial for attempted murder and attempted suicide. His death was certainly accelerated by his cutting his throat badly before reception.

Dietary, bedding, and general arrangements are good.

All prisoners are examined as to fitness for labour, &c.

Following in the footsteps of the Army and of the Navy, I should like to see arrangements made for the conservative treatment of the teeth of long-sentence prisoners.

The arrangements in the event of fire are adequate, and the water supply sufficient. Extracts, Governor's Report.

The contractors' supplies are good and punctually delivered.

The progressive system is fully carried out; and the regulations in all cases complied with.

Extracts, Chaplain's Report.

The local branch of the Discharged Prisoners' Aid Society has worked zealously and effectively. There has been a heavy drain on its resources in the past year owing to the remarkable increase in the number of prisoners to be dealt with.

I am glad to say that, notwithstanding the great increase in the number of prisoners received, there has been a reduction (from 23 to 15) in the number of juveniles. My remarks in last year's report with regard to the treatment of fishing apprentices obtained considerable publicity, and were the subject of long discussions in the local press and of numerous letters to me. I now remark that the number of these convictions (under the Merchant Shipping Act) has fallen from ten in last year to one in this year.

The prisoners have in almost all cases shown themselves grateful and attentive. I keep up a large correspondence with ex-prisoners who have made their imprisonment the beginning of better things.

I have again to acknowledge the hearty goodwill and co-operation which I have received from the prison officials.

LINCOLN PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners during the past year has been excellent.

One case of small-pox which occurred at the end of September, 1903, was promptly isolated and removed to a small-pox hospital. Most fortunately no other case presented itself; and all usual precautions of disinfection and re-vaccination of neighbouring prisoners were taken at once.

There have been no attempts at suicide.

Before prisoners are put to work, and on reception into prison, all are carefully examined by me as to their fitness or unfitness for labour.

The ordinary prison bedding is quite sufficient, and I have no fault to find with it.

Again I have to remark on the satisfactory operation of the new dietary; during the year I have only had to order extra diet in 39 cases (36 males and three females), owing to loss of weight and debility, a decrease of 10 from the number in my last report, while the number of prisoners has largely increased.

I get rarely any complaints of the quality of the food.

The food supply is good in kind, and I have always found it well cooked and well served.

I may conclude by expressing my cordial thanks to the whole staff of officers of the prison for the care and attention devoted to battling against small-pox so successfully in September last.

The rules laid down for the government of the prison have been complied with in every instance, as far as I am aware, except in such cases as have been reported to the Commissioners.

Extracts, Governor's Report.

LIVERPOOL PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Extracts, Chaplain's Report.

The duties of my department as Chaplain have been discharged during the past year.

The education of prisoners eligible for instruction has been duly carried on, and satisfactory progress has been made.

The Sunday and daily services have been duly performed, and the Holy Communion has been celebrated on several occasions. The sacrament of baptism has been administered to several infants born in the prison.

Prisoners on reception and discharge, sick and under punishment, have been duly visited. Others also have been frequently seen.

The utmost attention has been given to my chapel ministrations, and I cannot praise the conduct of prisoners during divine service too highly. I have always been treated with the greatest respect, with one exception.

The Discharged Prisoners' Aid Society has done good work during the year. The lady visitors have been very attentive. Classes for social and moral instruction have been conducted by one of them.

I have received every assistance from the prison officers. The retiring governor has been a great moral support to me.

Extracts, Chaplain's Report.

LIVERPOOL PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

No epidemic has occurred in this prison during the past year, although there have been four cases of erysipelas in the female division which were reported in January and March last.

There has been one case of suicide; and eight cases of attempted suicide all feigned.

All prisoners are carefully examined before doing hard labour.

The dietary and bedding have been sufficient and of good quality.

The general ventilation and heating are good and uniform.

The sanitary arrangements are satisfactory.

The hydrants and fire appliances are in proper working order. The supply of water is adequate. Extracts, Governor's Report.

The quantity of clothing and bedding in store has been found sufficient to meet all requirements.

The contractors' supplies have been good, and punctually delivered.

The progressive stage system has been duly carried out.

The rules laid down for the government of the prison have been complied with, except in such cases as have been distinctly reported to, or brought to the notice of, a Commissioner.

MAIDSTONE PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners has been good during the year ending March 31st, 1904. There were four attempted suicides, three feigned—and one real, by a prisoner who was awaiting trial for murder.

There have been two cases of erysipelas of the face (women) which were isolated and nursed by hospital trained nurses.

No deaths have occurred.

All prisoners are examined before being placed on any labour.

The dietary has been satisfactory.

The clothing and bedding are sufficient.

The heating and ventilation are good.

The sanitary arrangements are all in good order.

[illegible]
[illegible]'s
Report.

MANCHESTER PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The state of the prison is satisfactory.

The discipline of the prison during the past year has been satisfactory.

The right division of offenders does not appear to be as fully utilized as it might, with regard to the 2nd division. Only 124 prisoners have been placed in this division out of 5,894 committed to the Sessions.

The power to grant remission works well, and is a very strong incentive to good behaviour and industry.

Advantage has not been so fully taken of the provision for part payment of fines as last year.

There has been one case of corporal punishment.

Associated labour has been fully carried out.

The conduct of the subordinate officers has been good.

The conduct of the prisoners generally has been good.

There have not been any escapes or attempts to escape.

Hard labour has been enforced by oakum picking, and making coal-sacks by male prisoners in first stage. Other prisoners have been employed in making mail-bags, bed-cases, seamen's bags, shoemaking, tailoring, smith and tinman's work, carpentering, picking cotton and wool.

Female prisoners are employed in private washing, sewing, knitting, and making officers' uniforms, surplices, &c.

The fire appliances are in proper working order, and the supply of water is adequate.

The quantity of clothing and bedding in store has been found sufficient.

The supplies from contractors have been good and punctually delivered.

The progressive stage system is strictly carried out.

Extracts, Governor's Report.

The rules laid down for the government of the prison have been complied with.

The Church Army held a mission, commencing on the 3rd April; the prisoners appeared thoroughly to enjoy "Moody and Sankey" hymns, with a chorus, and a stranger in the pulpit.

MANCHESTER PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Extracts, Chaplain's Report.

The usual services have been performed, and the attention of the prisoners has been all that can be desired. For the fifth year a Church Army Captain has, under my supervision, held an eight days' mission with apparently good results.

The scholastic department is well attended to, and the education of the prisoners has been duly carried out, and appreciated by the scholars.

The prisoners' libraries are excellent, and are made good use of.

Visiting is systematically carried out, and prisoners on admission and discharge, in the wards and hospitals, also under punishment, are daily looked after, also the others are visited at frequent intervals. The prisoners appreciate these visits, and are always very respectful.

The lady visitors are very zealous and most desirous to try and reform cases submitted to them. Monthly lectures have been established, and three have been delivered this year by the ladies.

In conclusion I have to thank all the staff for their kind co-operation.

MANCHESTER PRISON.

Extracts from Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The general health of the prisoners has been good. The prevalence of small-pox in the district was a source of much anxiety, and every care was taken to prevent its introduction into the prison. The precautions exercised the year before were carried out last year, and [illegible] prisoners were re-vaccinated (951 males and 51 females), and the much-dreaded disease was kept out.

There has been no epidemic, but two cases of facial erysipelas and two of enteric fever have occurred during the year, all of which recovered.

The food, bedding and temperature of the prisons and hospitals have been satisfactory.

There has been one case of suicide by strangulation, and eight attempts, four of which were probably genuine and the others feigned.

The health of the officers has been good, and the lectures to the female probationers on sick nursing, &c., have been continued.

Inspection by Fire Brigade.

[illegible] the Inspection positions which have been held. There is an [illegible] system in force. The Fire Brigade would, if necessary, be summoned by telephone.

The buildings are kept in good order.

The condition of the rooms has been excellent.

The [illegible] system has been carefully carried out, and the rules for the prevention of fire have been complied with.

Extracts, Chaplain's Report.

I avail myself of this opportunity to express my indebtedness to the Rev. O. C. Carr, vicar of All Saints, the Rev. Chas. Digby Seymour, vicar of St. Jude's, and the Rev. Chas. Parkinson, a local clergyman, for their great kindness in acting as my substitutes when I have been absent on leave.

To the officers of the prison, the Governor, and one and all, I owe acknowledgment for personal courtesy and ready co-operation at all times in the discharge of my duties, which being generally of so much more pleasant a character than theirs, demand at my hands a grateful recognition.

The Discharged Prisoners' Aid Society continues to assist necessitous men and women and their families, giving a much needed helping hand to unfortunate inmates leaving these walls to renew the battle of life after former failures in the same.

The Church Army has continued to render to the prison service its invaluable aid in many ways, but more especially in sending a missioner to address and advise at a period kindly decided upon by those in authority.

Mrs. Bentham, the lady visitor, has been to me as a right hand in her kindly and wise treatment of women unhappily finding their way into prison.

NEWCASTLE-ON-TYNE PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners has been good.

No epidemic has occurred. Precautions are still being taken to prevent the occurrence of small-pox, which is present in the districts from which this prison gets its prisoners.

All prisoners are carefully examined before being passed for hard labour.

The dietary and bedding have been sufficient and of good quality.

The ventilation of the cells is good, and the general sanitary arrangements are satisfactory.

The lighting of the cells has been greatly improved by having clear glass in the windows.

The prison is kept at a uniform temperature

Extracts, Governor's Report.

RETURN showing the EMPLOYMENT and the VALUE of their

[illegible] often accepted, and I am sorry to say that, when the offer is accepted and the boys settled in comfortable homes, there are frequent runaways. Town lads do not like quiet country life; a few do well.

I examine each prisoner on admission, and those eligible receive careful instruction from the schoolmaster; females from the matron. We received 41 adults eligible for school instruction. Of this number 15 were transferred to other prisons, 10 made fair progress considering the time, one made no progress—he was very dull, two were unworthy, one declined, and the remainder are now being taught.

Fifty-six juveniles were received: 10 were illiterate, 5 Standard I., 9 Standard II., 6 Standard III., 17 Standard IV., 2 Standard V., 6 Standard VI., 1 Standard VII.—a very low average for their ages. Some are very dull, a few bright and intelligent, and have done well under the careful teaching of the schoolmaster.

A boy sentenced to six calendar months' imprisonment wrote to the schoolmaster after his discharge:—"I write you these few lines hoping to find you in good health. I am working at the Tram Company, getting 14s. per week. I am so glad that you were so kind to teach me to read and write."

The Discharged Prisoners' Aid Society has endeavoured to help every deserving case. All applicants are brought before the committee, who meet at the prison weekly, their requisitions carefully considered, and each deserving person has help given to meet his exact need. Our lady visitors are most attentive to the work of the society; in conjunction with the ladies' committee they consider the application of every female prisoner, and assistance is never denied to a deserving case.

Our agent, Mr. Green, does his work well—conscientiously and with great tact.

The Governor and all the officers do all they can to help me in my office of chaplain.

NORTHALLERTON PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The general health of the prisoners and of the staff has been good.

There has been no case of infectious disease to deal with.

Owing to the presence of small-pox in various parts of the country almost all unprotected prisoners have been revaccinated on reception.

Three insane prisoners were removed to the asylum.

One prisoner feigned an attempt at suicide.

One prisoner died suddenly of cerebral hæmorrhage.

The dietary and bedding have been sufficient and of good quality.

The water supply is excellent.

The ventilation and warming of the prison have been satisfactory

The general sanitation of the prison is good.

NORTHAMPTON PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners during the past year was satisfactory.

No suicide occurred.

All prisoners were carefully examined before being certified as physically fit for hard labour.

The dietary and bedding supplied to prisoners was sufficient and of good quality.

The heating arrangements are satisfactory, and a uniform temperature is maintained.

The ventilation of the cells is fairly good.

The general sanitary arrangements are satisfactory.

NORWICH PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT

I took over duty here on November 9th.

The state and discipline of the prison during the past year have been good.

Very few prisoners avail themselves of the part payment of fines, probably owing in many cases to the cost of committal.

The meaning of the 2nd division does not appear to be thoroughly understood. Many of the men in the star class might have, in my opinion, been placed in the 2nd division, whereas several who were committed to the 2nd division had bad records, and would not have been recommended by me for the star class had they been placed in the 3rd division.

Associated labour is much appreciated.

There have been no cases of corporal punishment, and no serious breaches of discipline.

The conduct of the subordinate officers has been good.

The conduct of the prisoners has been good; except for idleness there are very few reports.

There have been no escapes or attempts at escape.

The prisoners have been employed at sack and bag making, wood chopping, oakum picking, smiths' work, and the usual service of the prison. The value of the prisoners' earnings has been increased, chiefly owing to the large amount of Government work given us this year. All the ground, with the exception of the exercise yards, is now under cultivation, and will, I hope, produce good crops.

The prison buildings, fences, &c., are in good repair and condition, and the drainage is in satisfactory order.

The appliances for use in case of fire are sufficient and in good order, except those already reported. The supply of water is adequate.

The quantity of clothing and bedding, &c., in store has been found sufficient.

The contractors' supplies, as a rule, have been good, and punctually delivered.

Extracts, Governor's Report.

A mission was conducted here by the Church Army during March, and from what I have heard was much appreciated by the prisoners. I am of opinion that these missions cannot fail to do good.

The progressive stage system has been duly carried out, and the rules for the government of prisons have been complied with in every instance, except in such cases as have been brought to the notice of a Commissioner.

NOTTINGHAM PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners, both male and female, has been satisfactory; no prisoners have been discharged on medical grounds.

There has been no epidemic in the prison; owing to the number of cases of small-pox in this City, strict precautions have been taken with all prisoners; from 1st April, 1903, to 31st March, 1904, 600 prisoners have been re-vaccinated.

All prisoners sentenced to first-stage hard labour, and all other descriptions, are carefully examined before being put on to their tasks.

The dietary and bedding have been sufficient, and of good quality.

The ventilation of cells has been attended to.

The sanitary arrangements are satisfactory.

The heating arrangements are now more satisfactory.

OXFORD PRISON.

Inspector-General's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The discipline of the prison during the past year has been satisfactorily maintained.

There were no cases of corporal punishment.

The powers possessed by the sentencing courts under the Act of 1894 still remain very much in abeyance, only one second offence prisoner being received.

It would appear desirable to grant the privileges of the second offence to the first class, and to take those privileges away from the second prisoners who have been previously convicted.

The progressive mark system continues to operate very beneficially.

Few fines are paid at this prison, consequently the action under the part payment provision is very limited.

A mission was held in October: the methods adopted by the missioner were much the same. I am sure the Rev. Bryan Brown's efforts were greatly appreciated by many of the prisoners.

Associated labour appeals very strongly to the majority of the prisoners; there are, however, occasionally a few who strongly object to being brought into contact with other prisoners, and prefer to work in their cells.

A considerable increase has taken place in the numbers committed for drunkenness: the reply made to the enquiry why they refused to do the task, generally, is, that it was not good enough on bread and water. A large increase is also noticed in the committals for drunkenness.

The conduct of the officers has been very good.

The general conduct of the prisoners has been good.

There has been no escape or attempt to escape.

The woodchopping and bundling work, commenced at the close of last year, continues to work well, and has lowered the oakum picking: the other industries carried on were stonebreaking, coal-sack making, oakum picking, hammock and mail-bag making, and blanket eyeletting: a trial in pan-rch mat making is about to be made.

OXFORD PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

This year has been generally a very healthy one in prison as well as outside.

We have had during the year no epidemic disease, but diarrhœa, as last year, has been very prevalent. As far as I know this has not been due to any influences connected with imprisonment, as it has been unusually prevalent outside the prison.

There has been but one case of attempted suicide, and no suicide. The attempt was made by a female prisoner, who was afterwards sent to a lunatic asylum, having on trial been found guilty but insane.

The new diet has been all that could have been desired.

I have carefully examined all prisoners condemned to hard labour.

The bedding has been sufficient, the temperature uniform, and all the sanitary arrangements of the prison, including ventilation, have been good.

We have had no deaths, and very little serious disease during the year.

Extracts, Governor's Report.

I can speak very favourably of the officers of all classes and ranks; they have done their best to promote the good order, discipline, and efficiency of the prison. Work throughout the whole year has been carried on under high pressure, due to the great increase in the number of prisoners received, nearly 2,000 more than in the previous year, which was itself a record one.

The following table shews the increase during the last three years:—

In 1901 the numbers, including convicts, were ...					13,843
„ 1902	„	„	„	...	14,440
„ 1903	„	„	„	...	16,107
„ 1904	„	„	„	...	17,988

In consequence of the above-mentioned increase, over 2,000 prisoners have had to be transferred to other prisons.

The work performed has been much the same as last year, viz., oakum picking and (when procurable) coal-sack making for men at hard labour in the first stage; baking, bookbinding, mail-bag and brush making, joiner's, smith's, and tinman's work, mattress and bolster making, shoemaking, tailoring, and basket making.

The prison buildings are in good order.

The appliances for use in case of fire are in good order.

The contractors' supplies have been good and properly delivered.

The progressive stage system has been duly carried out, and the rules and regulations for the government of the prison have been enforced and observed.

PENTONVILLE PRISON.

Extracts. Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the prisoners continues to be very good, considering the abnormally large numbers which still pour in, the daily receptions for the year averaging fifty-six.

There has not been any epidemic, neither has there been a single case of any of the notifiable infectious diseases.

There are not any cases of suicide or attempt at suicide to report.

The examination of prisoners on reception is most searching, and I believe the success we have hitherto experienced in avoiding casualties is entirely due to the proceeding as now carried out.

The diet maintains its standard quality.

The ventilation of the cells is good, and considerable improvement has been effected by the erection of Buchan's extractors on A and D Halls.

The heating is fairly uniform.

There have been seven deaths from natural causes, and one judicial execution.

My colleague and myself continue to devote special attention to the mental cases. The number placed under medical observation during the year was 204 :—

66 stated that they were subject to fits. Of these, [redacted] were found to be genuine epileptics; in 48 other the result was negative; and five remain under observation.

138 were placed under observation owing to doubts as to their mental state. They were disposed of as follows :—

10 were certified insane in prison.

8 were sent to the workhouse as pauper lunatics.

45 were certified to the police as weak-minded.

63 were found fit for prison discipline, or were discharged in the usual way, observation having

Insufficient use of the strict discipline in the treatment of these convicts. Whatever is done as a punishment must of necessity improve their condition—hence the difficulty of punishing them. If for breaches of discipline they receive further punishment, they are still better off than outside, where they get very little food at any time. And even if they sleep on a plank bed, they are in comparative comfort, as through the greater part of the year, that is to say when they are not in the punishment ward or the prison, they sleep under hedges, or even, in cold weather, in manure heaps, as I have had opportunity of proof on more than one occasion in the reception ward.

PLYMOUTH PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

Divine services have been held daily without omission; also [illegible] on Sundays, Christmas Day, and Good Friday, with services. They are bright and musical, and the prisoners are hearty in their responses and reverent in their behaviour: in fact, the services are much appreciated, even by those who seldom if ever attend any public worship when free.

Holy Communion has been celebrated twice after due notice. The Lenten mission was held from March 8th to 15th inclusive. The addresses of Captain Spencer of the Church Army, London, on Sunday and on the week-day services were excellent, and listened to by males and females with great interest and attention.

The following clergy preached some forcible and helpful sermons which were much enjoyed:—Rev. W. Howard Coates, Rev. E. Martin, Rev. G. Sibley, Rev. J. W. Sturdy, Rev. J. M. Bridge, Rev. J. M. Wilson, and Rev. W. E. Waddington. The organist [illegible] attended the daily services, and renders me valuable assistance.

The admitted and discharged prisoners have been duly visited; also the sick and those under punishment: the rest at frequent intervals—special attention being paid to youthful offenders.

Twelve juveniles were transferred to Devizes during the year.

The prisoners are attentive and respectful when visited in their cells, and as a rule gratitude is expressed for this personal attention: in fact, I can speak very hopefully of these quiet talks with them.

Those entitled to receive instruction have been regularly and efficiently taught by the clerk and schoolmaster, and in several cases with marked progress.

Our library books, which are eagerly read and gratefully appreciated, are in a well-ordered and satisfactory condition, requiring only the usual yearly addition.

I have received encouraging letters from discharged prisoners and their friends, giving good accounts of some of those who have been under my charge, that they are now living honest and useful lives.

The Discharged Prisoners' Aid Society continues to do excellent work. It has been most liberal in dealing with prisoners on their discharge, and no deserving case has been left unhelped. The majority of the cases so assisted have turned out very satisfactorily

The Church Army during last year again has been of great use in receiving into its home able-bodied men recommended by the Governor and myself, and who are willing to work. Extracts, Chaplain's Report.

The lady visitors have been regular in their visits on the female side, and have assisted many on their discharge. Others are now doing well, having been influenced to stay a short time in the Salvation Army Home or the Door of Hope Refuge.

I desire to express my gratitude to the Governor and the other prison officers—males and females—for their kind courtesy and hearty co-operation.

PLYMOUTH PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

During the year ending 31st March, 1904, the health of the prisoners has been very good.

The daily average number treated in hospital was 0·1.

The daily number of slight indisposition, 1·0.

There has been one suicide, no attempts at suicide, no other death, and no birth.

One lunatic has been transferred to an asylum, and two females released on medical grounds.

Thirteen prisoners have been associated in the infirmary, and one male has been reported to the police as "weak-minded" four times.

The food, clothing, and bedding have been of good quality and generally sufficient.

The prisons have been kept warm and well ventilated.

The sanitary arrangements are in good order.

Extracts, Governor's Report.

been complied with in every instance, except in such cases as have been distinctly reported to, or brought under the notice of, a Commissioner.

The lady visitor visits the prison regularly once a week.

PORTSMOUTH PRISON.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

No exceptional circumstance in connection with the Chaplain's work has to be reported. Two Assistant Chaplains as before assist in the work, taking duty in alternate weeks.

The services have been regularly conducted. Two sermons are preached on Sundays, Christmas and Good Friday. As a rule short addresses are given at the daily service on three or four days in each week.

The Holy Communion has been celebrated in the prison chapel on the festivals during the year. On March 21st, Bishop Wilkinson confirmed a prisoner who had been under instruction for several months.

All prisoners have been visited on arrival and before discharge, and at other times. The record of visits paid is kept in the Chaplain's journal.

School instruction has been given regularly by the schoolmaster.

The excellent work of the police-court missionaries is still regularly carried on, and the Church of England Temperance Society's Labour Homes for men and women continue to be of invaluable service. The sister in charge of the women's Labour Home last visits the female prisoners in prison.

The Governor and all officers of the prison give every assistance and encouragement to the work of the Chaplains.

PORTSMOUTH PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

Owing to the death of Dr. Garrington, and my having taken on the duties but recently, I am unable to give a detailed report.

I have gone through the journal and the sick and complaining register, and find there has been no epidemic disease; that the general health of the prisoners has been good during the past year, the majority of those treated suffering only from minor ailments; that the ventilation and warming of the prison is satisfactory, and also the sanitary condition.

PRESTON PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners has been generally good, and there has been, beyond a mild form of influenza, no epidemic.

There have been neither suicides nor any attempt at suicide, and there have been no deaths.

All the prisoners are carefully examined before being passed for labour.

The dietary and bedding are sufficient and of good quality.

The ventilation of the cells is good, and the general sanitary and heating arrangements are satisfactory.

Two prisoners were notified to the police as weak-minded (one male congenitally, and one female probably from the effects of alcohol).

One male was certified as insane.

READING PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The state and discipline of the prison have been good.

The conduct of the subordinate staff has been good.

The conduct of the prisoners has been satisfactory, and the reports trivial.

The number of receptions has been 1,450, as against 1,426 of the preceding year.

The power to earn remission of sentence is a great inducement to work and good behaviour.

The privilege of the part payment of fines is carefully explained to prisoners on reception, but is seldom taken advantage of.

Those eligible for it have been, whenever and wherever possible, employed at associated labour in the basement, centre hall, in cells with doors open, and out-of-doors.

First stage hard labour has consisted of:—Making coal-sacks and coal-bags for the Admiralty, stone breaking for the Corporation, and wood chopping for the Government and for a contractor. Scarcely any men were put to oakum picking.

Industrial labour has consisted of:—Making mail-bags and labels for the Post Office, hammocks, mats, nosebags, eyeletting blankets, gardening, firewood bundling, and pea sorting. Sewing and laundry work for female prisoners.

The progressive stage system has been duly carried out, and particular attention paid to the awarding of marks.

The triple division of offenders continues to act well.

There have been one prisoner of the first division and seven of the second during the year.

There have been no escapes nor attempts at escape.

There have been three deaths during the year.

There has been no corporal punishment during the year.

The clothing and bedding have been sufficient.

The contractors' supplies have been good and punctually delivered.

The buildings and fences are in good order.

READING PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The general health of the prisoners has been good during the past year.

The dietary and bedding have been sufficient and the quality good.

The ventilation is satisfactory, and also the sanitary condition.

All prisoners are examined before being put to first stage labour.

Attention has been paid to the heating apparatus, and the temperature kept as nearly as possible uniform.

RUTHIN PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

During the year ended 31st March, 1904, the conduct of the officers has been exemplary, and their duties efficiently performed.

The conduct of the prisoners on the whole has also been very good, the number of reports and punishments being chiefly for idleness among those of the vagrant class.

There has been no act of violence, escape, or attempt to escape.

It is also to be regretted that the high number of prisoners committed for drunkenness, notwithstanding the Licensing Act of 1902, shows no sign of diminution.

The power to earn remission continues to give every satisfaction, and is much appreciated by those prisoners eligible for that privilege, besides being an encouragement to good conduct and industry.

First stage hard labour prisoners have been employed at wood chopping, oakum picking, stone breaking and Admiralty coal-sack making; other labour has included carpentry, shoemaking, tailoring, mail-bag making, and halter making, &c. The whole of the male prisoners' clothing necessary for the current year has been made at the prison, besides supplying quantities to other prisons. I have occasionally given young men who show an aptitude for carpentry, tailoring, or shoemaking employment in those trades, and the work they have turned out after a little instruction has been highly creditable.

The female prisoners have been employed at needlework, knitting, and washing.

Associated labour is much appreciated, and, under proper control, is an incentive to the prisoners' good behaviour, and is carried out whenever practicable, but occasionally it is very difficult with the small staff I have available to spare an officer to supervise it.

The prison buildings generally are satisfactory and in good repair.

The fire appliances are adequate and in working order; the supply of water also is sufficient.

Extracts, Governor's Report.

The contractors' supplies have been good and punctually delivered.

The quantity of clothing and bedding in store has been sufficient.

The prison garden, which is cultivated by prisoners, produces the greater portion of vegetables for the use of the prison.

The rules laid down for the regulation and government of the prison have been complied with to the best of my knowledge and belief.

RUTHIN PRISON.

Extracts, Chaplain's Report.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

The religious and moral condition of prisoners varied greatly; the early training of some of them had been sadly neglected. Religious and moral instruction was given to those that required it.

Divine service was held daily in chapel at 8.37 a.m. On Sunday, Divine services were duly and regularly performed in both languages.

The singing and responses were very heartily entered into, and the prisoners were very attentive.

The Holy Communion was administered four times, and the largest number that partook of it at the same time was four.

I was on leave of absence three times on week-days, when my duties were performed by the Revs. J. F. Reece, Rector of Llanfwrog, and D. H. Price, Curate of Ruthin.

Deserving prisoners were assisted by the Discharged Prisoners' Aid Society. All prisoners were seen on their admission and on the day previous to their discharge.

Sick prisoners and those under punishment were seen daily, other prisoners being very often visited, and all were very grateful to me for my visits.

The prison staff gave me every assistance in the discharge of my duties.

RUTHIN PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

During the year ended 31st March, 1904, the conduct of the officers has been exemplary, and their duties efficiently performed.

The conduct of the prisoners on the whole has also been very good, the number of reports and punishments being chiefly for offences against rules of the vagrant class.

There has been no act of violence, escape, or attempt to escape.

It is also to be regretted that the high number of prisoners committed for drunkenness, notwithstanding the Licensing Act of 1902, shows no sign of diminution.

The power to earn remission continues to give every satisfaction, and is much appreciated by those prisoners eligible for that privilege, besides being an encouragement to good conduct and industry.

First stage hard labour prisoners have been employed at wood chopping, oakum picking, stone breaking and Admiralty coal-sack making; other labour has included carpentry, shoemaking, tailoring, mail-bag making, and halter making, &c. The whole of the male prisoners' clothing necessary for the current year has been made at the prison, besides supplying quantities to other prisons. I have occasionally given young men who show an aptitude for carpentry, tailoring, or shoemaking employment in those trades, and the work they have turned out after a little instruction has been highly creditable.

The female prisoners have been employed at needlework, knitting, and washing.

Associated labour is much appreciated, and, under proper control, is an incentive to the prisoners' good behaviour, and is carried out whenever practicable, but occasionally it is very difficult with the small staff I have available to spare an officer to supervise it.

The prison buildings generally are satisfactory and in good repair.

The fire appliances are adequate and in working order; the supply of water also is sufficient.

RUTHIN PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

During the year the health of the prisoners has been good, and no case of serious illness has occurred, neither has there been any epidemic.

One death has been recorded among the male prisoners, due to sudden cardiac failure. There have been no cases of suicide or attempt at suicide.

One male prisoner was removed to an asylum—he had previously been an inmate, as also had his mother.

I have visited the prison morning and evening. All prisoners have been carefully examined before being classified for hard, or other labour, or punishment.

The food has been sufficient and of good quality.

The bedding has been good and sufficient.

The sanitary arrangements have been regularly inspected and found in good working order, and regularly disinfected.

The water supply is good and abundant.

The heating arrangements have been satisfactory; also the ventilation and temperature of the cells were maintained.

ST. ALBANS PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts Medical Officer's Report.

During the year ending March 31st, 1904, the health of the prisoners on the whole has been satisfactory.

There has been no zymotic disease, with the exception of one case of erysipelas.

There has been no attempted suicide.

All prisoners have been examined before being passed as fit for hard labour.

The dietary and bedding have been satisfactory.

xtracts, Governor's Report.

RETURN showing the EMPLOYMENT and the VALUE of their EARNINGS,

SHEPTON MALLET PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

There has been no epidemic, and no suicide or attempted suicide.

All prisoners are carefully examined before being passed for any labour.

The dietary has been sufficient and of good quality. The bedding has been sufficient.

The ventilation of the cells is good, the general sanitary arrangements are satisfactory, and attention has been paid to the heating of the prison.

Extracts, Governor's Report.

The state and discipline of the prison has been good, and the prisoners well behaved.

The magistrates at Petty Sessional Courts have taken greater advantage of the Triple Division of Offenders than hitherto, but they still might discriminate more than they do.

The power to earn remission continues to be highly prized by prisoners, but as regards part payment of fines few avail themselves of the privilege.

Associated labour in the corridors has been carried out as much as possible, and whenever practicable. The great majority of the prisoners naturally like this way of working; a few do not.

The conduct of the officers has been good. They have carried out their duty with zeal, and shown discretion and tact in dealing with the prisoners.

Male prisoners have been employed at the following industries:—Carpentry, mail bag making, sack making for the Admiralty, corn sack making, weaving halters, wood chopping, oakum picking, and stone breaking; female prisoners at needlework and washing.

The state of the fences and the buildings is good.

A fire hose with all requisites has now been supplied to the female prison, and additional lengths of hose have been added to the male prison. These should be sufficient. The supply of water is adequate.

The contractors' supplies have been good and punctually delivered.

There have been no escapes, nor attempts at escape.

The Discharged Prisoners' Aid Society continues to do an excellent work.

The progressive stage system has been duly carried out, and the rules laid down for the government of prisons have been complied with, except in such instances as have been brought to notice.

Governor's Letter.

SHREWSBURY PRISON.

Extracts Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the prisoners during the year has been good.

The health of the prison staff has been good.

The sanitary condition, drainage, and ventilation of the prison and officers' quarters are satisfactory.

The dietary and bedding have been sufficient and of good quality.

The heating apparatus has worked satisfactorily.

There was one death during the year, which was a case of suicide.

There was one case of attempted suicide, and two females were released on medical grounds.

There was one case of insanity, a male prisoner, who was removed to Bicton Asylum.

There were two male prisoners whom I reported as mentally deficient and unfit for ordinary discipline; both were quite harmless but were kept under observation, otherwise no special treatment was adopted in either case; on discharge, one was handed over to his relations, the other was reported to the police.

All prisoners are carefully examined on admission, and classified for labour.

STAFFORD PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

Extracts Governor's Report.

During the past year the conduct of the officers has been good.

The conduct of the prisoners on the whole has been good.

There have been no escapes or attempts at escape.

The appliances in case of fire are sufficient, and the water supply adequate.

The supply of bedding, clothing, &c., has been sufficient.

The contractors' supplies have been good and punctually delivered.

The progressive stage system has been duly carried out.

The prison rules and regulations have been complied with to the best of my knowledge and belief.

The following industries have been carried on during the year, viz. :—bed-case making, bookbinding, brushmaking, carpentry, cotton sorting, hammock making, mail-bag making, oakum picking, shoemaking, smithing and fitting, tailoring, weaving, sack-making, wood chopping, knitting, needlework and washing.

The changes brought about by the Prison Act, 1898, have continued to work well.

STAFFORD PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The general health of the prisoners has been good, and there has been no epidemic of any kind.

There was one case of suicide, and there were two attempts which were considered to be feigned.

There have been eight deaths during the year, six from natural causes, one from suicide, and one from judicial hanging.

It will be noted that, of the deaths from natural causes, two took place within a week of reception, and that in each case the prisoner was seriously ill on coming into prison.

All prisoners have been carefully examined on reception.

The dietary, bedding, ventilation, heating and sanitary arrangements have been satisfactory.

Special attention has been given to prisoners suffering from tuberculosis, and also to those mentally defective.

SWANSKA PRISON.

Swanska, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

During the year ended 31st March, 1904, the conduct of the officers has been good.

The conduct of the prisoners has been good.

There has been no escape or attempt to escape.

There has been no case of corporal punishment.

The prisoners in the industrial labour class have been employed at knitting, mail-bag making, mat making, weaving shirting, gardening, needlework, laundry work, and repairing all kinds of prison clothing, shoes, bedding and utensils.

First stage hard labour has been carried out by wood chopping, oakum picking, and coal sack making.

The number of prisoners placed in the star class during the year has been 118 males, and 18 females.

There were no prisoners committed to the first division.

The total number of prisoners received during the year under sentences of simple imprisonment only was 434, 266 males, and 168 females. Of this number only 22 (19 males, and 3 females) were committed to the second division.

Associated labour is in operation for all prisoners over the first stage, and is much appreciated. During the year the new workshops have been completed, and as they afford sufficient accommodation for the whole of the stage prisoners, associated labour is now carried on under greatly improved conditions.

Advantage is largely taken of the provision for the part payment of fines, and many prisoners thereby obtain an early release.

The power to earn remission continues to exercise great influence on the conduct and industry of the long time prisoners.

The garden crops have been good this year.

The supply of water is sufficient, and the quality good.

Extracts, Governor's Report.

The quantity of clothing and bedding has been found sufficient for all requirements.

The buildings and fences are in good order.

The fire appliances are in good order, and the supply of water adequate.

The supplies from contractors were of standard quality, and delivered punctually.

The progressive stage system has been carried out, and to the best of my belief, the rules laid down for the government of the prison have been complied with in every instance, except in such cases as have been distinctly reported to, or brought under the notice of, a Commissioner.

SWANSEA PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners during the past year has generally been very good.

No epidemic has occurred.

There has been no suicide or attempt at suicide.

The prisoners are all thoroughly examined before being passed for any labour.

The dietary and bedding have been sufficient and of good quality.

The general sanitary arrangements of the prison, and the ventilation of the cells have been most satisfactory.

The heating of the prison has been carried out properly, and the temperature of the cells was uniformly maintained.

USK PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The state and discipline of the prison during the past year have been very satisfactory.

The conduct of the subordinate officers has been good.

No prisoners have been committed as offenders of the first division, and only nine males and two females have been received in the second division. The number of prisoners treated as first offenders and placed in the "star" class has been 128 males and 16 females, of whom four males and no females were recommitted.

There has been a marked increase in the number of commitments for workhouse offences and offenders of the vagrant class.

The provision for part payment of fines continues to be largely taken advantage of.

The privilege of earning remission of sentence continues to have an excellent influence on prisoners with sentences over six months, and only in one instance has it been found necessary to forfeit remission marks.

Prisoners awaiting trial for a month or upwards have been given the opportunity to work at some prison industry for their own benefit, and many of them have availed themselves of it.

The prisoners have been employed at stone breaking, wood chopping, oakum picking, coal-sack making, mail-bag making, hammock making, tailoring, repairs of all kinds, needlework and knitting.

The garden has supplied sufficient vegetables for the requirements of the prison, except potatoes.

The hydrants and fire appliances are in proper order, and monthly fire practices are carried out.

The supply of water is adequate.

Associated labour has been provided when practicable, with cell doors open and in the corridor, but in cold weather many prisoners would prefer not to have it.

There have been no escapes or attempts.

The prison buildings and fences are in good order.

The clothing, bedding, &c., are in sufficient quantities to meet

all requirements, and the supplies from the contractors have been good and punctually delivered, except in one case duly reported.

Extracts, Governor's Report.

The Discharged Prisoners' Aid Society has been a great help to prisoners on discharge, every case worthy of help having been relieved.

The progressive stage system has been duly carried out, and all rules laid down for the government of the prison have, to the best of my belief, been complied with.

USK PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the prisoners has been good during the past year.

I strictly isolate prisoners, especially tramps, and constantly fumigate cells if required.

The food has been of excellent quality and always properly cooked.

The ventilation, cleanliness, and sanitary condition of the prison have been good.

The water is most excellent.

The bedding and clothing have been sufficient, with the exception of a few cases, when an extra blanket has been given out.

I inspect all prisoners' clothing, cells, and food once a week.

I visit the prison twice daily, and oftener if required.

All prisoners are examined on reception, and next morning before being classified for labour.

Inspector's Report.

The fire appliances are sufficient, and the supply of water adequate.

The quantity of clothing, bedding, &c., in store is ample for all requirements.

The sanitary supplies have been good and generally delivered.

The progressive stage system has been duly carried out; and the rules and regulations for the government of the prison have been rigidly enforced and observed.

RETURN showing the EMPLOYMENT of PRISONERS, and the VALUE of their LABOUR during the Year ended 31st March, 1904.

WAKEFIELD PRISON.

Extracts, Chaplain's Report.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

The services in the chapel have been conducted as usual, excepting during the prevalence of small-pox, and sermons have been preached morning and evening and readings on two other days of the week; also addresses or readings in the hospital on Sundays.

I wish to state how grateful I am to the Horbury Sisters for the good work they have done for the reclamation of those who come under their influence.

The admissions and discharges taking up so much of my time, I have not done as much regular visitation as could be desired. Of late a considerable number of pledges have been taken and I trust some with good results.

Returns, Secretary's Report.

RETURNS showing the EMPLOYMENT of and the VALUE of their

Extracts, Chaplain's Report.

All cases referred by me to the Church Army I know, from my own personal knowledge, have been most carefully dealt with.

The Sheriffs' Fund monthly grants to the chaplain for the assistance of discharged prisoners have been very helpful.

The school statistics for the past year are appended.

The increased time given to each scholar some few years ago continues to show excellent results. More interest is displayed in the work on the part of the teacher and the taught.

WARWICK PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

During the year the general health of prisoners has been uniformly good; there has been no epidemic.

One prisoner died during the year.

There have been two births.

There has been one case of attempted suicide.

Every prisoner has been medically examined on reception.

The diet, bedding, and furniture have throughout the year been carefully attended to; the sanitary arrangements have been adequate; the ventilation of the cells, corridors and offices has been satisfactory.

The heating of the prison has been efficiently carried out, and a minimum temperature of 55° Fahr. maintained.

The health of the staff of officers has been uniformly good.

Extracts, Governor's Report.

The clothing and bedding have been found sufficient to meet all requirements.

Contractors' supplies have been good and fairly punctually delivered.

The progressive stage system has been duly carried out.

The rules laid down for the government of prisons have been complied with to the best of my knowledge, except in such cases as have been distinctly reported to, or brought under, the notice of a Commissioner.

WINCHESTER PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

During the past year there has been no epidemic.

One prisoner developed small-pox soon after his reception ; this was a bad case of the confluent variety, and proved fatal.

The general health of the prisoners has been very good.

There was no case of suicide, but one of attempt, which was in all probability feigned.

All prisoners are carefully examined before being put to hard labour.

The dietary has been sufficient and of good quality.

The bedding is of good quality.

The ventilation of the cells is good, and the general sanitary arrangements are satisfactory.

WORCESTER PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The prison is in a good state, and discipline is strictly maintained.

The conduct of the subordinate officers has been most satisfactory, and I cannot speak too highly of the way in which they perform their duties.

The various instructors display great zeal in teaching, and I think the results are very satisfactory.

The conduct of the prisoners, if the large number of reports for idleness are omitted, has been good. The idleness reports are practically all incurred by the lazy, loafing, good-for-nothing vagabonds. They will not work out of prison, and by attempting the same thing in prison they swell the report sheet.

Those prisoners eligible for remission are very careful not to lose it, which is a good sign.

Advantage is taken of the part payment of fines.

Associated labour is carried out fully.

There has been no associated exercise.

There have been no escapes or attempts to escape, and no case of corporal punishment.

Male prisoners have been employed in making mats, rugs, mail-bags and nose-bags, in coir balling, sack mending, oakum picking, stone breaking, wood chopping, gardening and building operations, also in cooking.

Female prisoners are employed in washing, knitting, and needlework.

The buildings and walls are in good order.

The clothing and bedding have been sufficient.

The supplies from contractors have been of good quality and punctually delivered.

There have been 3 males and 2 females placed in the second division.

The progressive stage system has been duly carried out, and all rules relating to the government of prisons have been complied with. **Extracts, Governor's Report.**

The fire appliances are in good order.

Extracts. Chaplain's Report.

An eight days' mission was preached from October 4th to 11th, by Captain Brazier of the Church Army. It was well and wisely conducted, and all the missioner's ministrations, public and private, were marked by considerable earnestness, tact, and force. I have reason to know that real good was done.

The schoolmaster's work has been, as usual, earnestly and efficiently performed.

In conclusion, I desire to put on record my gratitude to the Governor and all the staff for a sympathy, courtesy, and helpfulness which have never failed.

WORCESTER PRISON.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

Extracts, Medical Officer's Report.

The health of the prisoners during the past year has been very good; there has been no epidemic.

We have had two cases of pneumonia with fatal results. There have been three other deaths, one from extensive burns and shock, and two sudden from cardiac disease; five in all.

There have been no attempts to commit suicide.

All prisoners are carefully examined before being certified as fit for hard labour. Both diet and bedding have been sufficient, and the food of a very good quality. The ventilation of cells is very good, and the sanitary arrangements are of a very good order. The heating of the prison has been kept at a uniform temperature.

WORMWOOD SCRUBS PRISON.

EXTRACTS FROM THE GOVERNOR'S REPORT.

Extracts, Governor's Report.

The state of the prison and the discipline of the prisoners have been very satisfactory.

No corporal punishment has been inflicted.

The longer my experience of the working of the law under which prisoners may earn remission of sentence, the more convinced I become of its value in assisting to maintain discipline by giving to prisoners a strong incentive to good conduct.

The number of persons received under sentence to the second division has been about the same as the number committed last year.

The provision by which part payment of fines may be made is taken advantage of in many cases.

Associated labour has been carried out in the various shops and halls. The behaviour of the prisoners so brought together has been good, and a large amount of work has been done.

The conduct of the subordinate officers has been very good.

The conduct of the prisoners has been good.

There have been no escapes nor attempts to escape.

The buildings, fences, &c , are in good order.

The appliances for use in case of fire inside the prison are in proper working order. They are sufficient, and the supply of water is adequate.

The quantity of clothing, bedding, &c., in store has been found sufficient to meet all requirements.

The supplies sent in by contractors have been of good quality, and their delivery has been punctual.

The progressive stage system has been carried out, and the rules laid down for the government of prisons have in all cases been complied with.

WORMWOOD SCRUBS PRISON.

Extracts Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the prisoners generally was fairly good.

No epidemic occurred.

There was no case of suicide.

Two prisoners attempted to commit suicide; one case was obviously feigned; in the other there was a considerable element of doubt, but the probabilities were that it was a genuine attempt.

Eleven prisoners died, all from natural causes. Three invalids were released on medical grounds.

The special regulations in operation for the care, treatment, and disposal on release of weak-minded and tuberculous cases were strictly enforced: it is to be regretted that there does not appear to be any diminution in the numbers of the former class received here.

All prisoners were carefully examined on reception, and before being passed for any labour.

The dietary was sufficient and of good quality, and the cooking was in all respects satisfactory.

The food supplies of all kinds have been systematically inspected.

The bedding and clothing were good and sufficient.

The ventilation of the cells and the heating of the prison have been carefully attended to.

The re-drainage of the prison has now been completed, and the sanitary arrangements generally are in excellent order.

The cookery classes held periodically for the training of officers as cooks and bakers were carefully supervised, and much time and attention were devoted to those officers under instruction in nursing for appointment to the hospital staff.

Lecture Governor's Report.

In the absence of the Chaplain I have conducted the recreation. I have addressed them collectively, and once a week I have visited them in their cells for a little straight talk, on which occasion they have been most attentive to the words of advice given them for their guidance and encouragement in well doing. The general environment of these unfortunate lads is of a sound, intelligent, and moral character, which tends to improve the mind both in regard to self respect and reliance. Strict discipline has been maintained in every particular, whilst full consideration has been extended to them.

The Chaplain devotes much time to the spiritual care of them.

The progress of the scheme is most encouraging in all respects.

The Deputy Governor has taken special interest in the scheme, and has rendered me every assistance in the management.

The Instructors have been most painstaking in teaching the various trades.

The clerical staff of Officers have performed their onerous duties with zeal, firmness and zeal.

The full spirit of the Standing Orders and Regulations laid down has been faithfully carried out.

Reports against the prison rules are few, and not of a serious nature.

The health of these youths has been very good. They improve in the bracing air of Borstal.

Every care is taken to drill them into habits of absolute order and cleanliness.

In conclusion, I can conscientiously state that no single effort has been spared to bring this scheme to a successful issue.

Strict surveillance, and early employment after discharge, materially assist the scheme.

It is sincerely hoped that the sympathy and help of employers of labour may be obtained, as under the present training of these lads, the great majority should turn out good citizens if given a fair start on release.

The Visiting Committee have watched with keen interest the progress made.

APPENDIX No. 21.

EXTRACTS FROM REPORTS OF OFFICERS OF CONVICT PRISONS.

AYLESBURY PRISON.

Extracts, Governor and Medical Officer's Report.

EXTRACTS FROM THE REPORT OF THE GOVERNOR AND MEDICAL OFFICER.

The conduct of the subordinate officers has been very satisfactory.

The conduct of the majority of the prisoners has been good. There has been a considerable increase in the number of punishments, but this is due to the re-conviction, during the year, of a number of troublesome and insubordinate women.

The prisoners have been employed at needlework, knitting, mail-bag making, and twine spinning, in addition to the usual work in connection with the prison, such as gardening, baking, cooking, &c. The manufacture of bead-blinds has also been started as a new industry, with most satisfactory results. It is an excellent occupation for prisoners not in very robust health, as it requires a large amount of patience and ingenuity, and it has, moreover, the merit of being fairly remunerative.

The supply of water has been sufficient and of good quality.

The supply of clothing, bedding, &c., has been adequate for our requirements.

The contractors' supplies have been of good quality, and delivered with punctuality, with the exception of those cases duly reported.

The regulations regarding the progressive stage system have been carefully carried out.

RETURN showing the EMPLOYMENT of PRISONERS, and the VALUE of their EARNINGS, during the Year ended 31st March, 1904.

Extracts, Governor and Medical Officer's Report.

BORSTAL PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The conduct of the officers has been very satisfactory.

The conduct of the prisoners has been good.

There have been three attempts at escape.

There have been no suicides or attempts at suicide.

The condition of the buildings is satisfactory.

The fire appliances are in good working order, and the supply of water is of excellent quality and sufficient in quantity.

The contractors' supplies have been good in quality and regularly supplied.

Discipline has been maintained, and the rules laid down for the progressive stage system, as well as those for the government of the prison, have been complied with in every instance, except in such cases as have been reported to a Director.

RETURN showing the EMPLOYMENT of PRISONERS, and the VALUE of their EARNINGS during the Year ended 31st March, 1904.

Extracts, Governor's Report.

BORSTAL PRISON.

Extracts, Medical Officer's Report.

EXTRACTS FROM THE MEDICAL OFFICER'S REPORT.

The health of the convicts generally has been good; no epidemic disease has occurred, nor has there been any case of serious accidental injury.

The food supplies have been of satisfactory quality, while the preparation and serving of the diets leave little to be desired, the bread especially meriting the highest praise.

The drainage of the prison and quarters is efficient, and the water supply good.

During the year twelve convicts were transferred on medical grounds, eight of the number being weak-minded.

The deaths call for no special remark.

The anthropometrical examinations, commenced last May, are steadily progressing, and the results may be expected to form the basis of some interesting statistics.

The health of the officers and their families has been good, and no case of epidemic disease has occurred among them.

work and "acting on the square" in future, to feel that his case has in any particular been neglected, or not given the fullest investigation.

I would mention the efficiency and carefulness I notice in the work done by the schoolmaster and librarian warders. Though very hard pressed from the area of the prison and the number of "wants" of so large a body of men, their duties are readily and actively undertaken. The average number of books issued each week on special application counts to about 250.

In the selection of books for the annual demand a special effort has been made to meet the reasonable requests of prisoners who desire to get up-to-date information in the work of various trades.

PARKHURST PRISON.

Extracts, Governor's Report.

EXTRACTS FROM THE GOVERNOR'S REPORT.

The state of discipline during the year has been much the same as last.

The conduct of the subordinate officers has been generally good.

The labour is much the same as last year.

The buildings and fences are in fair order.

The fire-extinguishing appliances would be perfected by a steam fire-engine, as owing to invalid population, it is difficult to obtain sufficient manual labour for a hand-engine.

The clothing, bedding, &c., are sufficient, and in good condition.

The supplies have been delivered punctually, and on the whole up to the standard.

The progressive stage system has been duly carried out, and the rules laid down for the government of the prison have been complied with in every instance, except in such cases as have been reported to or brought to the notice of a Director.

Extracts, Medical Officer's Report.

The officers of the hospital staff have performed their duties with zeal and efficiency, and they have shown much tact and good judgment in the difficult circumstances that frequently arise in the hospital work.

On the 22nd March, one convict, having 11 months of a long sentence still to serve, obtained his release on licence on medical grounds.

The health of the population in the quarters has been entirely satisfactory, and there has been a gratifying freedom from infectious disease, with the exception of three mild cases of scarlet fever, and an epidemic of chicken-pox, equally mild.

When the new wing, now rapidly nearing completion, is opened, we shall have a total of 248 cells of the improved type, which, as regards ventilation, admission of light, cubic space and sanitary perfection generally, present a striking contrast with the old cells which they are gradually replacing.

Extracts, Superintendent's Report.

delirium tremens several times. She was subject to periodical attacks of melancholia.

Registered No. 22, age 27.—She has been a regular drinker, when not in prison, since the age of 16, and had suffered from delirium tremens "many times." She had been in a lunatic asylum eight times. On the last occasion she was sent from this reformatory during her present sentence, and returned as recovered about five months later. She was devoid of any self-control, was extremely violent and noisy, and at times imagined her food and medicine were poisoned. Her mother, two sisters, and a brother, are known to have been insane.

Registered No. 25, age 31.—A hard drinker for seven years. She too had suffered from delirium tremens on several occasions, and had once been under treatment in a lunatic asylum. She was extremely violent, and at times had well-marked delusions of persecution.

Registered No. 37, age 37.—She had been a drinker for about seven years, and was in a bad state of health on reception. She has recently died in the asylum to which she was removed from here, of cirrhosis of the liver. Her form of insanity was chronic delusional mania.

The ventilation, heating, and sanitary arrangements have been quite satisfactory, and the temperature has been kept to a uniform standard.

The dietary has been sufficient, and of good quality, and the cooking has been excellent.

The health of the staff has generally been good.

AYLESBURY STATE INEBRIATE REFORMATORY.

Extracts, Chaplain's Report.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

The Divine services on Sundays, as the daily morning prayers, have been attended by a varying number of inmates, during which I have observed a growing interest and appreciation.

The inmates received and discharged, the sick, and those in separation have been regularly visited.

The school class has been steadily taught for one hour on four days weekly. The quiet time and application to self-improvement has been fruitful in more ways than indicated in the accompanying tables.

The library books are much in request.

My aim and unceasing effort has been to cultivate and foster a will to take kindly to their new conditions, inasmuch as they are generally unwilling to yield or submit to the will of those who strive for their betterment.

The Lady Visitors, Adeline, Duchess of Bedford, and Lady Battersea continue to take kindly interest in the inmates—specially emphasized in their recommendation of Mrs. Terrell and Mrs. Down, who have taken up a valuable side of the work in quiet talk and frequent intercourse, which I am persuaded tend to the growth of woman-like self-respect and to the awakening of higher hopes, from being brought into contact with superior minds and noble personal ideals.

WARWICK STATE INEBRIATE REFORMATORY.

Extracts, Chaplain's Report.

EXTRACTS FROM THE CHAPLAIN'S REPORT.

The inmates have attended the chapel services daily, twice on Sundays, on the great festivals and on Good Friday.

I have seen them daily, and have also visited them both privately and in association.

They have received library books twice weekly, and appear to value the privilege.

Two inebriates have been under instruction.

The average inmate does not appear to be susceptible to moral influence. This is probably due to the fact that they are mostly, for all practical purposes, irresponsible.

I have found myself severely hampered by the system of association. Any chance of influencing for the better the younger inmates has been destroyed by subsequent intercourse with older men.

Care has been taken to make provision for inmates on their release, but owing to the class of men admitted, the difficulty of finding an opening has been very great.

I regret that I am unable to report much sign of improvement in the character of any of these men. They complain generally, that they are being "experimented on here." They regard their detention as an injustice, their privileges as so many signs of weakness, and any discipline as an intolerable wrong.

I must say a word of praise for the attendants: they are admirably selected, and perform very trying duties with tact, discretion and firmness.

I have received the assistance of all officers from the Governor downwards.
